WealthAhead II Savings Insurance - Supreme Product Handbook

(For internal use only)

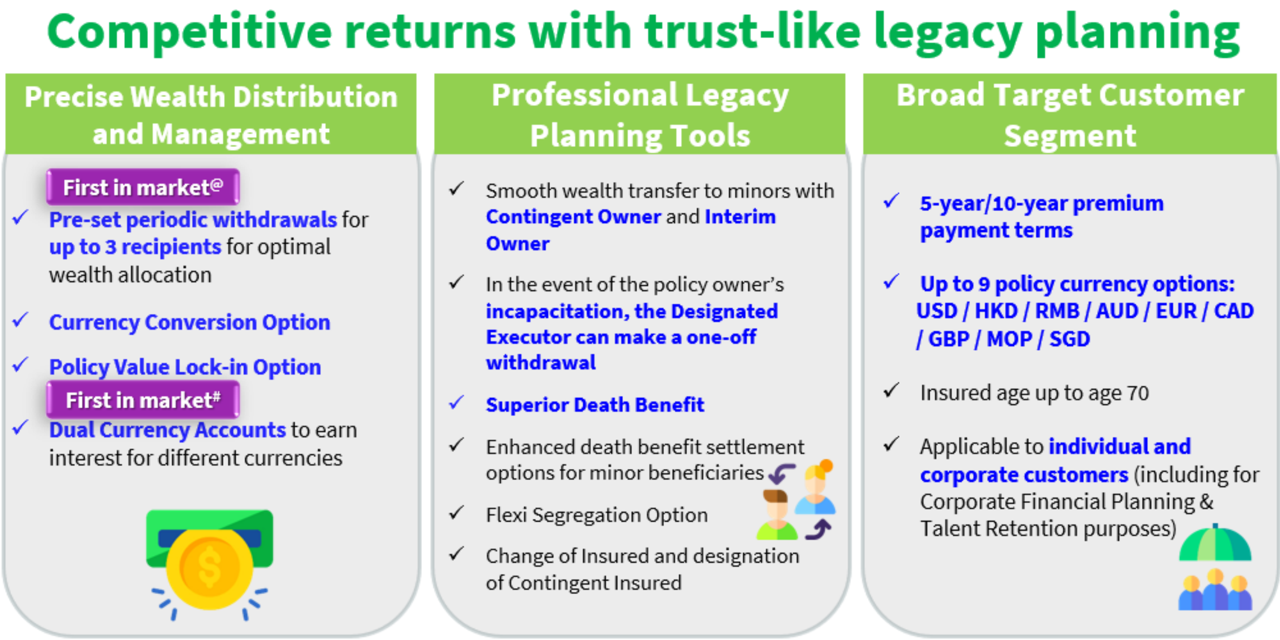
Table of Content

1. Product Overview

1.1 Introduction

After the launch of WealthAhead Savings Plan (“WealthAhead”) in early 2025, it received overwhelming response in the market and with excellent sales, it quickly became one of AXA’s most popular products. To continue the success of WealthAhead, we proudly launch a fully upgraded **WealthAhead II Savings Insurance** (“WealthAhead II” or “this plan”) helping customers **grow their wealth and witness the legacy**, allowing them to truly **“be ahead with WealthAhead”**.

WealthAhead II offers **5-year** and **10-year** premium payment terms. Besides maintaining WealthAhead’s existing edge on **excellent total returns and liquidity**, this plan now offers **up to 9 policy currency options** and **Currency Conversion Option**, allowing customers to have **wealth accumulation** and **flexible currency allocation**. What’s more, this product encompasses a **trust-like design**[+], allowing customers to plan for their wealth distribution and policy inheritance at different life stages in advance, including the **first in market**[@] **Wealth Master Service**[&], to provide steady cash flow for **up to 3 recipients** through **pre-set periodic withdrawals**. **Heritage Protector Option** provides **unique in market**[^] **dual succession options**, which aids customers in formulating their **policy succession** plan in advance such that it can be securely passed on to the next generation at the right time.



+“Trust-like” indicates that the design concept of WealthAhead II draws from the flexibility and precision of a trust, but does not imply it is equivalent to a trust product

@The information refers to the service of periodic withdrawal with up to 3 recipients of withdrawal payments. The information refers to Hong Kong market only and is based on a comparison of periodic withdrawal arrangements offered by insurers for Long-Term Businesses as defined by the Insurance Authority in the Register of Authorised Insurers in Hong Kong as of Jul 2025.

&Wealth Master Service is an administrative service arrangement offered by the Company and not a plan feature of WealthAhead II.

^The comparison is based on similar participating savings plans provided by key competitors in market, with reference to the information as of Jul 2025.

#The information refers to the offering of dual currency accounts under a policy. The information refers to Hong Kong market only and is based on a comparison among participating savings plans with reversionary bonus offered by insurers for Long-Term Businesses as defined by the Insurance Authority in the Register of Authorised Insurers in Hong Kong as of Jul 2025.

1.2 Product Highlights

Offer attractive total returns

- **Top-quartile^ projected total returns for multiple policy currencies among similar products in the market**
- In particular, for 5-year pay **USD, AUD and CAD** policy:
  - Total breakeven year is 7 years
  - Projected total returns at year 10 can reach up to **3.52%**, projected total returns at year 30 can even reach up to **6.50%**, helping customers accumulate long-term wealth

Multi-currency options to flexibly react to global opportunities

- **Multiple policy currencies** - **Up to 9 policy currency options$**, allowing customers to choose the appropriate policy currency for wealth accumulation
- **Currency Conversion Option** - Starting from the **3rd policy anniversary**, customers can **convert the policy to another policy currency** without any administration fees, allowing them to adapt to changing market conditions and personal needs while **preserving the total cash value**
- **Policy Value Lock-in Option** - Starting from the **5th policy anniversary**, customers can **flexibly lock the policy values** into the Prime Currency Account by way of partial surrender to **minimize the impact of market fluctuations to the policy values**
- 【First in market#】 **Dual Currency Accounts** - After exercising the Policy Value Lock-in Option, the lock-in amount in the Prime Currency Account can be **freely switched** to the Global Currency Account, and vice versa. Apart from earning **competitive interests** in the Dual Currency Accounts, it also allows **withdrawals at any time** to serve as **flexible cash reserve**. Customers can also **change the currency of the Global Currency Account as appropriate** to capture global opportunities

Limitless financial planning flexibility to freely allocate wealth

- 【First in market@】 **Wealth Master Service** - **Pre-set periodic withdrawals with tailored instruction** for **up to 3 withdrawal recipients** to ensure that funds will be automatically dispersed to the customer and/or their loved ones at the designated time
- 【Earliest in market^】 **Flexi Segregation Option** - Starting from the **1st policy anniversary**, customers can **split the policy values** into a separate policy for an **unlimited number of times**. Subsequently, customers can **exercise different policy options** for each policy, enjoying unlimited flexibility
- **Extended Grace Period of Premium to 365 days** - To face changes in different life stages or even after relocation of primary residence, customers can apply to extend the grace period of premium payment to temporarily alleviate financial pressure

Professional legacy planning tools to ensure the financial arrangement aligns with your wishes

- 【Unique in market^】 **Heritage Protector Option** - After **policy inception**, customers can prepare for the future ahead of time by designating a **contingent owner** and, if necessary, an **interim owner**, with the flexibility to choose the most suitable **succession event** as well as the **timing for change of policy ownership**. Allowing for earlier policy succession arrangement and to take control over their legacy planning
- **Flexi Continuation Option** - After **policy inception**, a **contingent insured** can be designated, allowing for policy continuation and to provide the **compassionate benefit** in the event of the death of the existing insured, freely allocate the proportion for life protection and wealth inheritance

- **Change of Insured Option** - Starting from the **1st policy anniversary**, allow to **change the insured** for an unlimited number of times to ensure wealth can be passed on to future generations
- **Flexi Care Option** - After **policy inception**, customers can appoint a **designated executor** who can apply for a **one-off withdrawal** at the pre-specified percentage of the total cash value in the event of the policy owner's **mental or physical incapacitation** without going through complex legal processes
- **Superior or Regular Death Benefit Option** - Provides life protection to protect customers' beloved family members, the Superior Death Benefit may offer an **additional 30%** of the total standard premiums paid as Death Benefit, which is **market-leading^**
- **Death Benefit Settlement Option** - 4 options of death benefit settlement are offered and allow for **different settlement methods for different beneficiaries**. The first death benefit payment can be **deferred for up to 30 years**, facilitating death benefit distribution to juvenile beneficiaries

Versatile solution for business owners

- **Allow corporate as policy owner** – Corporate could help manage corporate wealth and retain talented employees through **corporate financial planning** or **talent retention**

The application to exercise the policy options are subject to the respective administrative rules of each policy option. Such approval will be subject to the absolute discretion of the Company.

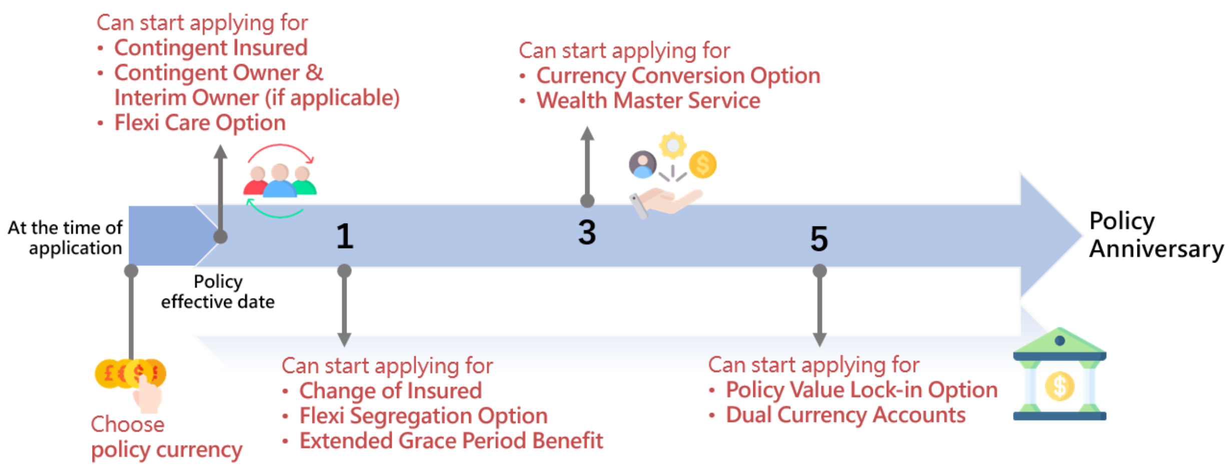
1.3 Policy Options Exercise Date



Note: Subject to relevant requirements and terms and conditions

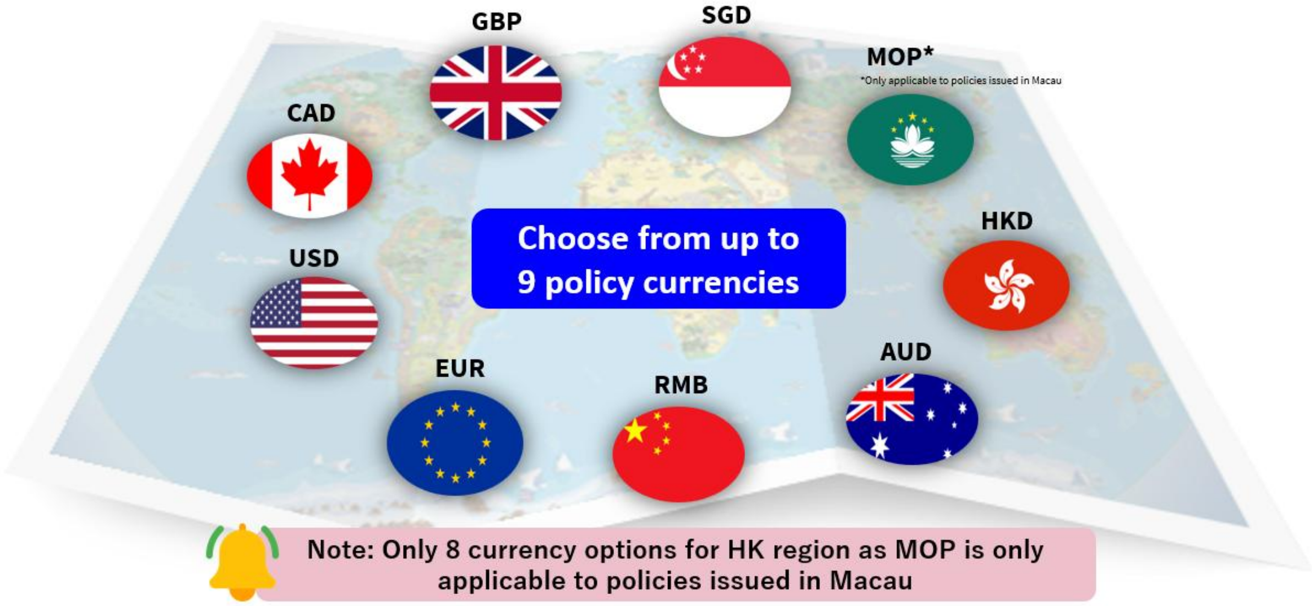
2. Product Features

2.1 Policy Currency Options and Returns

Same as FortuneXtra

In the context of uncertainties in the global market, customers are starting to pay more attention on the currency options of their asset allocations. In particular, they are looking for more flexible and risk-resistant savings solution in order to mitigate currency risk and capture growth opportunities in different markets.

WealthAhead II offers 5-year or 10-year premium payment terms with **8** and **9 policy currencies** available for customers to choose from in Hong Kong region and Macau region respectively. The policy currencies include Renminbi (RMB), United States Dollar (USD), British Pound (GBP), Euro (EUR), Canadian Dollar (CAD), Australian Dollar (AUD), Singapore Dollar (SGD), Hong Kong Dollar (HKD) and Macau Pataca (MOP; only for policies issued in Macau). The returns vary depending on the policy currency. Customers can choose the most appropriate currency according to their needs and plan for their future.



"WealthAhead II" Returns for Each Policy Currency

WealthAhead II provides guaranteed cash value, non-guaranteed reversionary bonus and non-guaranteed terminal bonus, helping customers to achieve potential growth in long-term savings. The returns for each policy currency may vary. Under the current assumption, **the projected total returns for AUD and CAD policies are the same as USD policies**, which is **rare in the market**^. **The projected total returns of multiple policy currencies are highly ranked among similar products in the market**^. For details, please refer to "Appendix III. Comparison of Similar Products in the Market – Returns".

Year 40	6.39%	6.30%	6.00%	5.64%	4.98%

Please note that the above projected returns have been adjusted based on the regulatory cap of 6.0% (HKD) / 6.5% (non-HKD) for the illustrated internal rate of return for Surrender Value at the point of sale. However, the guideline will not impact the actual policy returns.

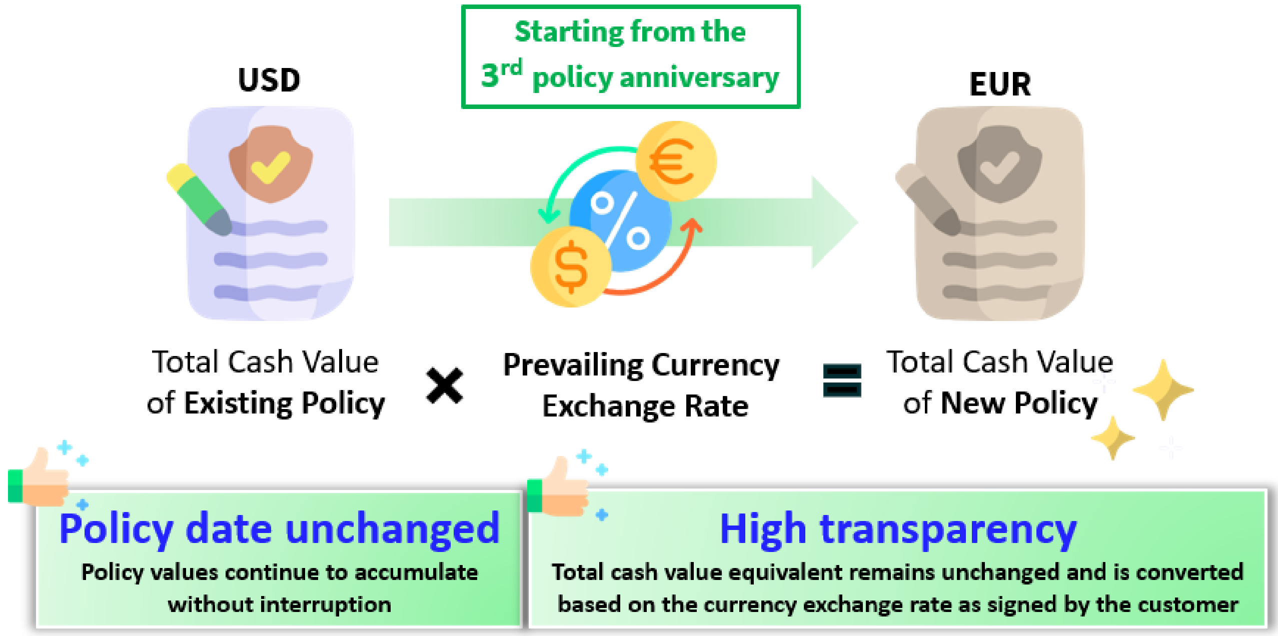
Important Note: The above projected values are for reference only and based on certain assumptions, including but not limited to annual premium payment mode is chosen, all premiums are paid in full when due, no benefits have been paid, no levy on insurance premiums is included throughout the term of the policy and no withdrawals or other policy options have been exercised. These projected values are not guaranteed and are projected based on the Company's current assumed bonus scale. The actual values may be higher or lower than these projected values.

^ The comparison is based on similar participating savings plans provided by key competitors in market, with reference to the information as of Jul 2025.

2.2 Currency Conversion Option

Similar to FortuneXtra

In a global economy that is full of instability, there may be sudden changes in the savings or investment landscape. Customers' personal and family needs may also change with different events. In order to aid customers in responding to their changing needs at every life stage and capturing global opportunities at any time, WealthAhead II offers the flexibility of changing the policy currency with the **Currency Conversion Option**. Starting from the **3rd policy anniversary** and within 30 days from each policy anniversary, customers can **convert the policy value** to a policy in another currency **without incurring any handling fees**. However, only one application can be made per policy year. After exercising the **Currency Conversion Option**, the existing policy will be fully converted into a policy denominated in a different currency of a plan as we may designate ("Converted Policy") and the **policy date shall remain unchanged**, allowing customers' wealth to continue to accumulate to ensure their future financial goals remain on track.



Reminder:

The notional amount, guaranteed cash value, reversionary bonus, terminal bonus and any unpaid premium of the Converted Policy may be higher or lower than the currency equivalent of the original policy currency. As such, prior to conversion, customers must agree to and sign the illustration document of the Converted Policy to ensure that they understand the impact of currency conversion on the policy values.

For details, please refer to "6.4 Details of Currency Conversion Option".

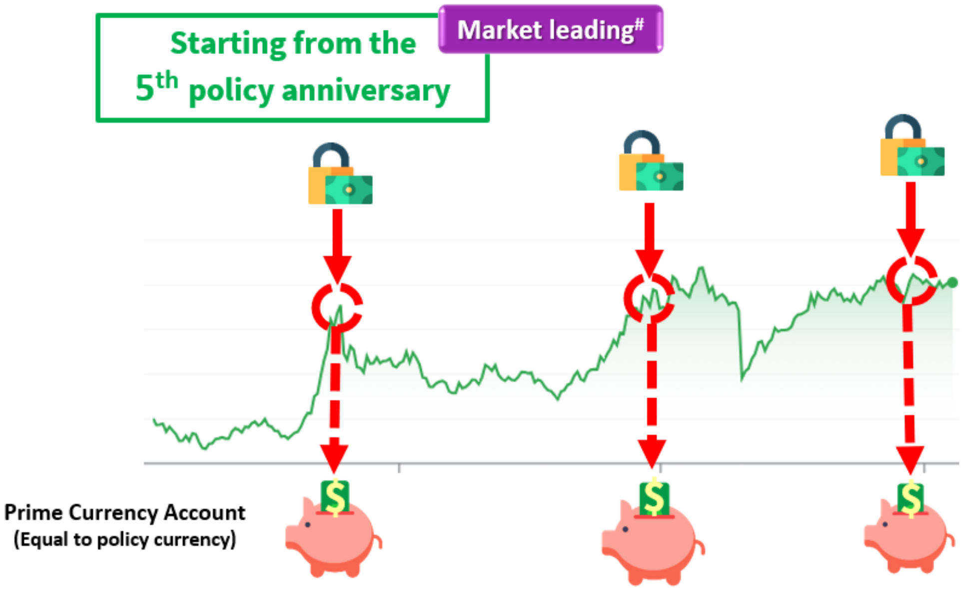
2.3 Policy Value Lock-in Option and Prime Currency Account

Similar to FortuneXtra

WealthAhead II offers **Policy Value Lock-in Option**. Starting from the **5th policy anniversary**, within 30 days of each policy anniversary, customers can apply to transfer the below values to the **Prime Currency Account**:

- ✓ Latest guaranteed cash value
- ✓ Latest cash value of the reversionary bonus
- ✓ Latest cash value of the terminal bonus

The option allows the policy owner to lock-in at most 50% of policy values each policy year with **no limit on the aggregate lock-in rate****, allowing customers to flexibly **turn non-guaranteed values into guaranteed**. Once locked-in, the lock-in amount will not be impacted by further market fluctuations, allowing added stability to customers' wealth.



- **Once locked, non-guaranteed becomes guaranteed**
- **No aggregate cap on lock-in rate****
  (Some products in the market have a 50-60% aggregate cap)
- **Earn stable interest after lock-in**
- **Withdraw anytime after lock-in**

For details, please refer to "6.5 Details of Policy Value Lock-in Option and Dual Currency Accounts".

The comparison is based on similar participating savings plans provided by key competitors in market, with reference to the information as of Jul 2025.

** The customer can apply to exercise this option once per year within 30 days of each policy anniversary. The lock-in rate shall not be less than 10% and more than 50% of (i) guaranteed cash value, (ii) the latest cash value of the reversionary bonus, and (iii) the latest cash value of the terminal bonus provided that (i) the annual minimum lock-in rate and the annual maximum lock-in rate may be changed by the Company at its absolute discretion from time to time; (ii) the amount apply to transfer to the Prime Currency Account shall not be less than the minimum amount as may be determined by the Company at its discretion from time to time; and (iii) the application for the lock-in amount will not result in the notional amount being less than the after policy inception minimum notional amount as may be determined by the Company at its discretion from time to time.

Reminder:

After exercising the Policy Value Lock-in Option, the notional amount will be decreased. The policy must meet the after policy inception minimum notional amount requirement.

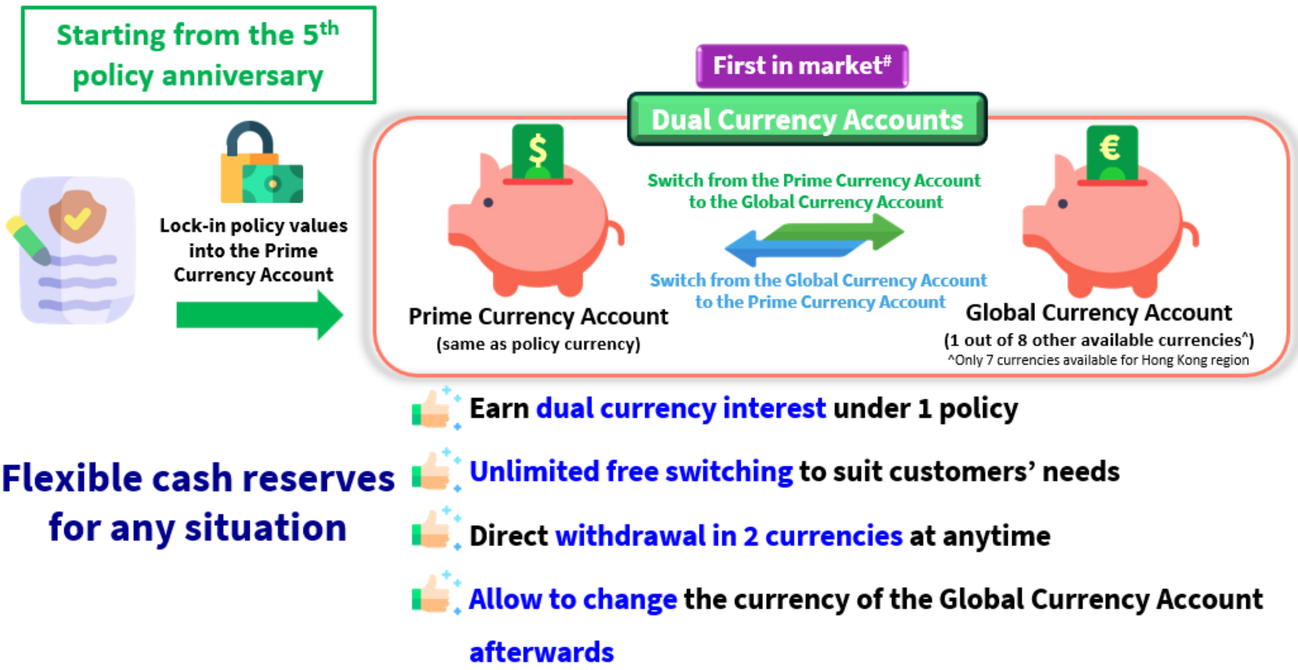
2.4 【First in market#】Dual Currency Accounts

Similar to FortuneXtra

Unlike regular savings plans, WealthAhead II offers unprecedented flexibility to help customers cope with changing needs. Starting from the 5th policy anniversary, after the customers have exercised the **Policy Value Lock-in Option**, on top of the Prime Currency Account, they can apply to open a **Global Currency Account** and **choose another currency from the currency selections made available by the Company (other than the policy currency)**. This means customers can enjoy **Dual Currency Accounts** — Prime Currency Account and Global Currency Account — in one single policy to earn competitive interest (non-guaranteed) under 2 different currencies.

Customers can apply for switching between the Prime Currency Account and the Global Currency Account anytime. Dual currency accounts are similar to flexible cash reserves, in which **switching can be exercised for an unlimited number of times for free** to capture market opportunities. Customers can also make **withdrawals from the two currency accounts directly** at any time for their needs.

Customers can change the currency of the Global Currency Account (when the balance of the Global Currency Account is zero) as appropriate to accommodate the currency needs in different life stages.



For details, please refer to "6.5 Details of Policy Value Lock-in Option and Dual Currency Accounts".

The information refers to the offering of dual currency accounts under a policy. The information refers to Hong Kong market only and is based on a comparison among participating savings plans with reversionary bonus offered by insurers for Long-Term Businesses as defined by the Insurance Authority in the Register of Authorised Insurers in Hong Kong as of Jul 2025.

2.5 【First in market@】 Wealth Master Service

Value-added Service | **Similar to Max Goal II**

Wealth Master Service enables customers to **pre-set periodic withdrawal instructions^** for regular withdrawals from the policy values.

First in market@ 3 Main Advantages of Wealth Master Service

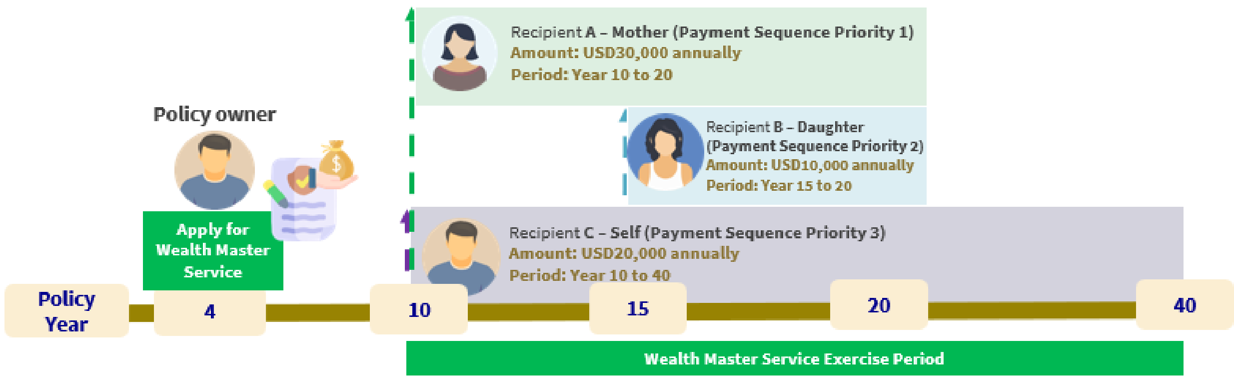
Pre-set instruction
Only one application is required, no need for repeated applications

Generate cash flow
Customize the withdrawal amount and period for up to 3 recipients

Automatic distribution
Withdrawal amounts are directly distributed into the recipient's account

Starting from the 3rd policy anniversary

Pre-set instruction to provide stable cash flow for 3 recipients



Based on the financial needs of the recipients, the policy owner can setup appropriate withdrawal combinations for each recipient. Each withdrawal instruction will **be handled independently** based on the recipient's payment sequence priority. Even if the withdrawal instruction for a particular recipient has been terminated, it will not affect other recipients.

<u>Specify the below for each policy:</u>	<u>Specify the below for each recipient:</u>
• Recipients (up to 3) and their respective payment sequence priority; • Withdrawal frequency (monthly or annual); and • Withdrawal option	• Withdrawal amount; • Withdrawal start year; and • Withdrawal period

Withdrawal Options	Withdrawal Sequence	Earliest Effective Date#
1. Withdrawal of policy value (reduction of notional amount <u>allowed</u>)	(i) Prime Currency Account* (ii) Global Currency Account* (iii) Cash value of reversionary bonus and cash value of its corresponding terminal bonus (iv) Guaranteed cash value and cash value of its corresponding terminal bonus (Notional amount will be reduced)	3rd policy anniversary
2. Withdrawal of policy value (reduction of notional amount <u>not allowed</u>)	(i) Prime Currency Account* (ii) Global Currency Account* (iii) Cash value of reversionary bonus and cash value of its corresponding terminal bonus	3rd policy anniversary
3. Withdrawal of policy value from lock-in account$	(i) Prime Currency Account* (ii) Global Currency Account*	5th policy anniversary

For details, please refer to "6.6 Details of Wealth Master Service".

@ The information refers to the service of periodic withdrawal with up to 3 recipients of withdrawal payments. The information refers to Hong Kong market only and is based on a comparison of periodic withdrawal arrangements offered by insurers for Long-Term Businesses as defined by the Insurance Authority in the Register of Authorised Insurers in Hong Kong as of Jul 2025.

^ The application form must be submitted at least 30 days before the effective date of the withdrawal (i.e., the policy anniversary date). Each withdrawal is subject to specific conditions, including but not limited to the minimum withdrawal amount and after policy inception minimum notional amount requirements as determined by the Company from time to time.

The actual withdrawal payment date is the working day following the respective anniversary or monthiversary.

* The Prime Currency Account and the Global Currency Account are only available from the 5th policy anniversary.

$ For this service, the lock-in account refers to the Prime Currency Account and the Global Currency Account.

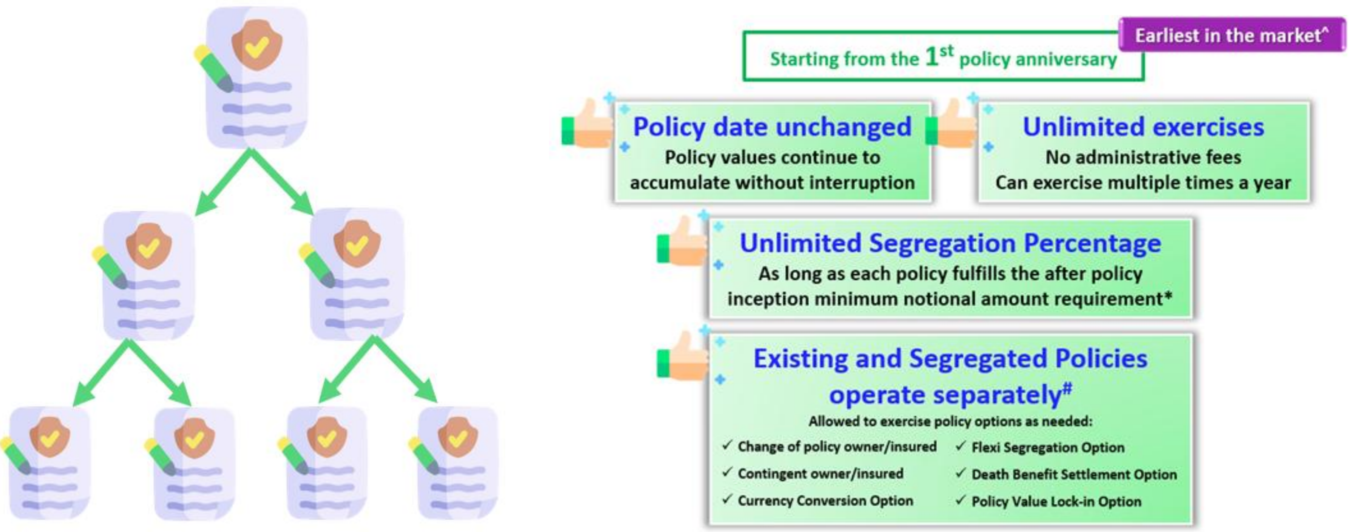
2.6 【Earliest in market^】Flexi Segregation Option

Similar to WealthAhead

Starting from the **1st policy anniversary**, customers can exercise the **Flexi Segregation Option**, to transfer a portion of the policy values from a WealthAhead II policy to another WealthAhead II policy ("Segregated Policy"). The currency and policy date of the Segregated Policy **remain unchanged**, allowing for the continued growth of the policy value without any interruption.

When the policy is in effect, customers can exercise the Flexi Segregation Option for an **unlimited number of times** within the same policy year and throughout the entire policy term, **without incurring any administration fee**. A new policy will be segregated upon each segregation, the notional amount* and policy value will be calculated based on the segregation percentage chosen by the customers.

The existing policy and Segregated Policy will **operate separately**#. The Segregated Policy will become a completely new policy and can exercise different policy options/services from the existing policy, including changing the insured/policy owner, Policy Value Lock-in Option, Heritage Protector Option, Flexi Continuation Option, Currency Conversion Option and Wealth Master Service, etc. or even exercise the Flexi Segregation Option again. The policy owner can flexibly segregate the policy to the loved ones according to different needs for optimal wealth allocation.



For details, please refer to "6.7 Details of Flexi Segregation Option".

^ The comparison is based on similar participating savings plans provided by key competitors in market, with reference to the information as of Jul 2025.

* The remaining notional amount of the existing policy and the notional amount of the Segregated Policy must not be less than the after policy inception minimum notional amount requirement.

If the policyowner makes any changes to the existing policy, it will not affect the operation of the Segregated Policy, or vice versa. However, please note that in respect of a Converted Policy or a Segregated Policy, the initial insured shall refer to the insured named in the policy specifications at the commencement of the policy with the earliest issue date among the preceding policies. The extended grace period benefit will only be available if such benefit has not been applied for and approved by us under any preceding policy.

Reminder:

After exercising the Flexi Segregation Option, the remaining notional amount of the existing policy and the notional amount of the Segregated Policy must not be less than the after policy inception minimum notional amount requirement.

Similar to Max Goal II

2.7 【Unique in market^】 Heritage Protector Option

WealthAhead II introduces the **Heritage Protector Option**, an exclusive legacy planning tool which has trust-like function to enable customized succession planning that aligns with the policy owner's preferences, providing certainty in the great vision of wealth transfer to the next generation especially to minors.

Pre-designate to ensure peace of mind
Able to designate the contingent owner and interim owner at the time of application, the application will be processed after policy inception

Align with customers' inheritance timeline
No signature from the contingent owner and interim owner is required at designation, customers can choose the most suitable moment to inform the designated individuals

Unique in Market^ Dual Succession Options
In the event of an occurrence of an incapacitation event to the policy owner, the policy can be taken up by the interim owner

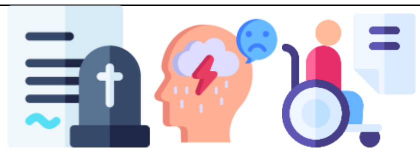
After **policy inception**, the "Heritage Protector Option" allows the policy owner to select the below options for changing policy ownership to the contingent owner.

1. Policy owner to select one of the Succession Event Options:

Succession Event Option (1) – Death

Change of policy ownership upon the policy owner's **death**

Succession Event Option (2) – Death/Incapacity



Change of policy ownership upon the policy owner's
(i) Death; or
(ii) Mental Incapacitation Event; or
(iii) Loss of Capacity for Independent Living

2. Policy owner to select one of the Nomination Options:

Nomination Option (A) – Instant

A **contingent owner** of aged 18 or above has to be designated, who shall become new owner upon succession event.

Nomination Option (B) – Designated Age

The policy owner can designate a specific age of 18 or above that the **contingent owner** must have attained to take up policy ownership ("Designated Age"). An **interim owner** who is aged 21 or above must be designated for managing the policy with granted policy rights prior contingent owner takes up the policy.

2 Main Advantages of Heritage Protector Option

Designate the **event** for succession

- Policy ownership can be transferred upon incapacitation
- Avoid legal risks and family disputes

Designate the **age** of inheritance

- Designate the successor's inheritance age to reduce the risk of squandering
- Introduce interim owner role to manage the policy temporarily to ensure seamless continuity of wealth transfer
- Policy owners can grant policy rights to the interim owner

Reminder:

1) If the **policy owner is the insured**, both **contingent owner and contingent insured must be designated at the same time**. Furthermore, the designated individuals must be in specific relationship. For details, please refer to "6.8 Details of Heritage Protector Option".

2) Designation for Flexi Care Option **cannot co-exist** with designation for Succession Event Option (2) – Death / Incapacity under Heritage Protector Option.

3) The change of policy ownership is **not automatic** and application needs to be submitted to the Company **within one year** from the date of succession event or contingent owner reaches Designated Age when the policy is held by the interim owner or latest IO event (please see definition in section "6.8.3 Potential outcomes if a Succession Event occurs").

For details, please refer to "6.8 Details of Heritage Protector Option".

Notes:

- This option is only applicable to individual-owned policies

^ The comparison is based on similar participating savings plans provided by key competitors in market, with reference to the information as of Jul 2025.

2.8 Flexi Continuation Option

Similar to WealthAhead

WealthAhead II offers **Flexi Continuation Option,** which helps policy owners with legacy planning, allowing the policy to become a financial tool that can be passed on for generations, truly achieving continuous protection and ongoing value.

After **policy inception** and provided the insured is alive, the policy owner may apply to designate one **contingent insured** and pre-assign a portion of policy value to be accumulated further.

In the unfortunate event of the death of the insured, the designated contingent insured will become the new insured. The portion of the policy value that has been pre-assigned will continue to accumulate for future generations. The remaining portion of the policy (if any) will be payable in a lump sum to the designated beneficiary in the form of **compassionate benefit**, providing **immediate financial support**. This arrangement not only provides immediate financial support but also allows loved ones to maintain their original savings and protection goals without the need to replan during important moments.

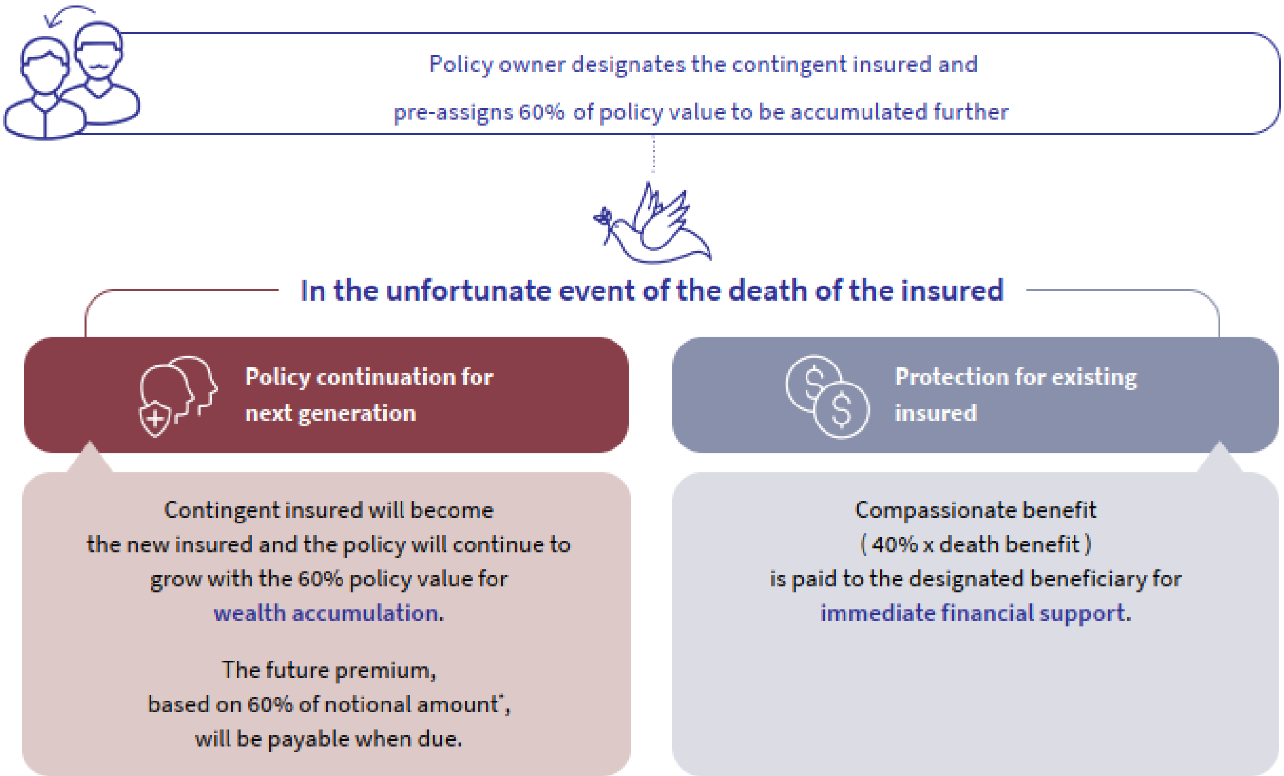
Pre-designate to ensure peace of mind

Able to designate the contingent insured at the time of application, the application will be processed after policy inception

Align with customers' inheritance timeline

No signature from the contingent insured is required at designation, customers can choose the most suitable moment to inform the designated individual

Dual protection for endless wealth inheritance



For details, please refer to "6.9 Details of Flexi Continuation Option".

* The notional amount is used for the calculation of premium and relevant policy values of this plan; it is not equivalent to the death benefit of the insured and is only one of the factors in determining the death benefit payable.

2.9 Change of Insured Option

Similar to WealthAhead

In order to meet customer needs at different stages and to facilitate wealth inheritance, starting from the **1st policy anniversary**, policy owners may change the insured of the policy through the **Change of Insured Option** for an **unlimited number of times**, subject to our rules. After the insured has been changed, the benefit term will be changed to up to age 138 of the latest insured[&] without affecting the policy values under the policy.

- Applicable to individual-owned and **corporate-owned** policies
- Policy owners can change the insured of the policy for an **unlimited** number of times
- The benefit term will be changed to up to **age 138 of the latest insured[&]**
- The new insured can be **older than** the existing insured

  Age requirement for the new insured:

New insured must be	Superior Death Benefit Option	Regular Death Benefit Option
Age range	0-60	0-65
Maximum age limit	Initial Insured's age + 10	65

- If the Regular Death Benefit Option has been selected, the medical underwriting requirement will be **waived** when changing the insured*
- Policy values will **not be affected**

For details, please refer to "6.10 Details of Change of Insured Option".

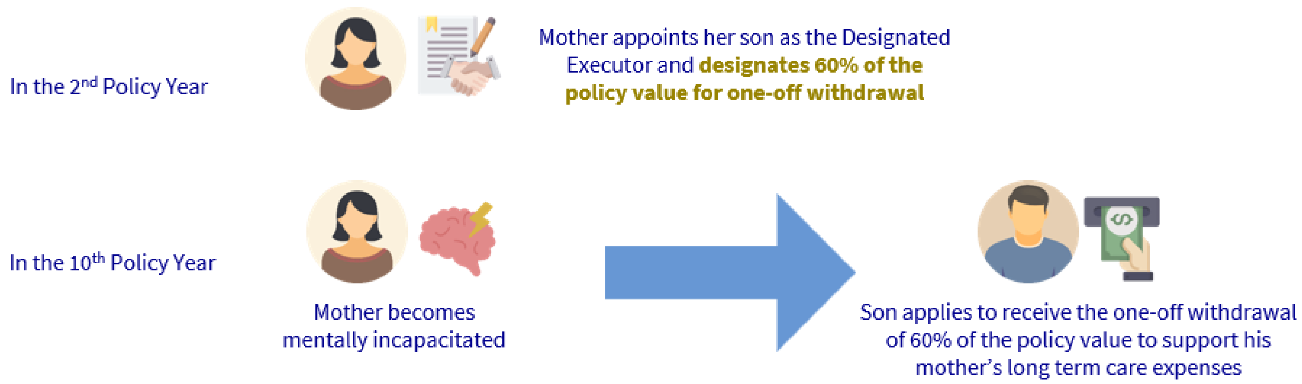
[&] "age 138" refers to the policy anniversary on or immediately following the insured's 138th birthday
* Subject to prevailing rules as determined by the Company from time to time

2.10 Flexi Care Option

Similar to Max Goal II

A product feature designed to give policy owners timely financial support without going through complex legal processes in case of unfortunate events. After **policy inception**, policy owners can appoint a **designated executor** who can apply for and to receive a **one-time withdrawal** at a certain percentage of the total cash value as selected by the policy owner ("Designated Withdrawal"), in the event of the policy owner's **Loss of Capacity for Independent Living or Mental Incapacitation**.

If the Designated Withdrawal is 100% of the total cash value, the policy shall terminate upon the approval of the one-off withdrawal.



Reminder:

Designation for Flexi Care Option **cannot co-exist** with designation for Succession Event Option (2) – Death / Incapacity under Heritage Protector Option.

For details, please refer to "6.11 Details of Flexi Care Option".

Notes:

- This option is only applicable to individual-owned policies

2.11 Death Benefit

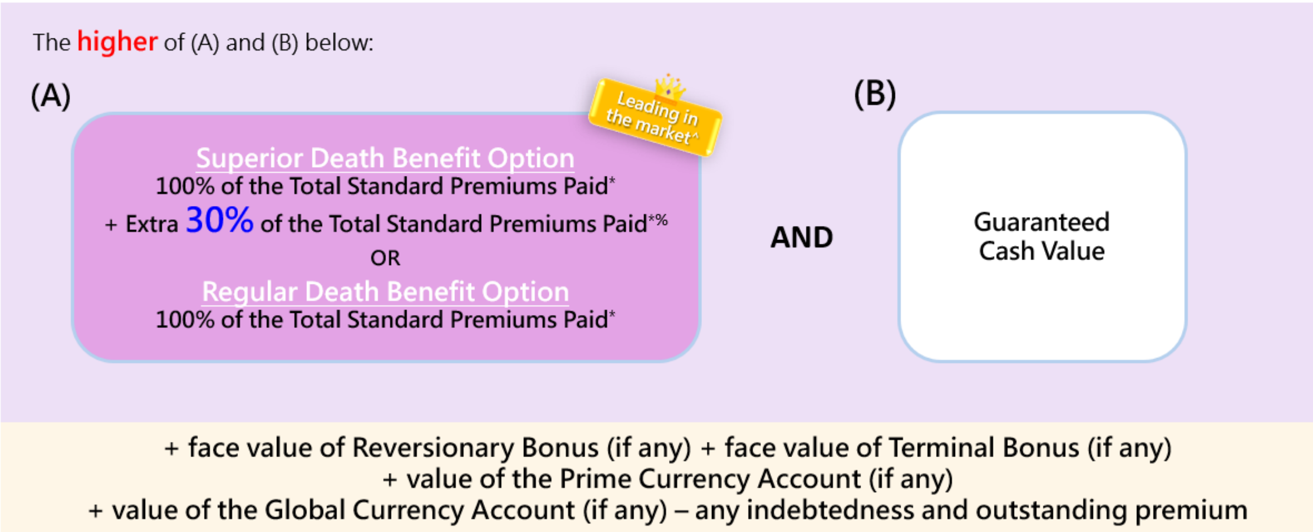
Similar to WealthAhead

WealthAhead II offers two death benefit options for customers to choose at the time of application:

- Superior Death Benefit Option; or
- Regular Death Benefit Option.

After the policy issuance, the selected death benefit option cannot be changed afterwards.

In the unfortunate event of the death of the insured, the death benefit payable to the designated beneficiary is equal to:



For different underwriting requirements for Superior Death Benefit Option / Regular Death Benefit Option, please refer to "7.1 General New Business Underwriting Procedures and Requirements".

^ The comparison is based on similar participating savings plans provided by key competitors in market, with reference to the information as of Jul 2025.

* Total standard premiums paid is the total premiums due and paid from the policy date up to the date of death of the insured, in which any extra premiums due to underwriting requirements and / or supplements (if applicable) shall be excluded. In case of any change in notional amount or premium payment mode, the total standard premiums paid shall be adjusted accordingly.

% If the insured passes away at the initial insured's age of 60 or below and the policy has been in-force for 3 years. The initial insured refers to the insured named in the policy specifications at the commencement of the policy, and in respect of a Converted Policy or a Segregated Policy, this means the insured named in the policy specifications at the commencement of the policy with the earliest issue date (i.e. existing policy) among the preceding policies.

2.12 Death Benefit Settlement Option

Same as Max Goal II

In order to enhance customers' agility in legacy planning (especially for juvenile beneficiary), WealthAhead II provides an upgraded version of the Death Benefit Settlement Option ("DBSO").

Allow **deferral of first payment of death benefit**

During the insured's lifetime, policy owner can designate the Death Benefit Settlement Start Age for each beneficiary, which is the age of the relevant beneficiary must have attained to start receiving death proceeds. Policy owner has the flexibility to defer such payment for up to 30 years from the date of designation*.

Flexible payment methods*

Policy owner can choose:

(1) Lump Sum Payment [Default]

(2) Payment by Instalments

(3) Hybrid option of (1) and (2) – pay in lump sum first, then pay the remaining balance by instalments

(4) Hybrid option of (2) and (1) – pay by instalments first, then pay the remaining balance in lump sum

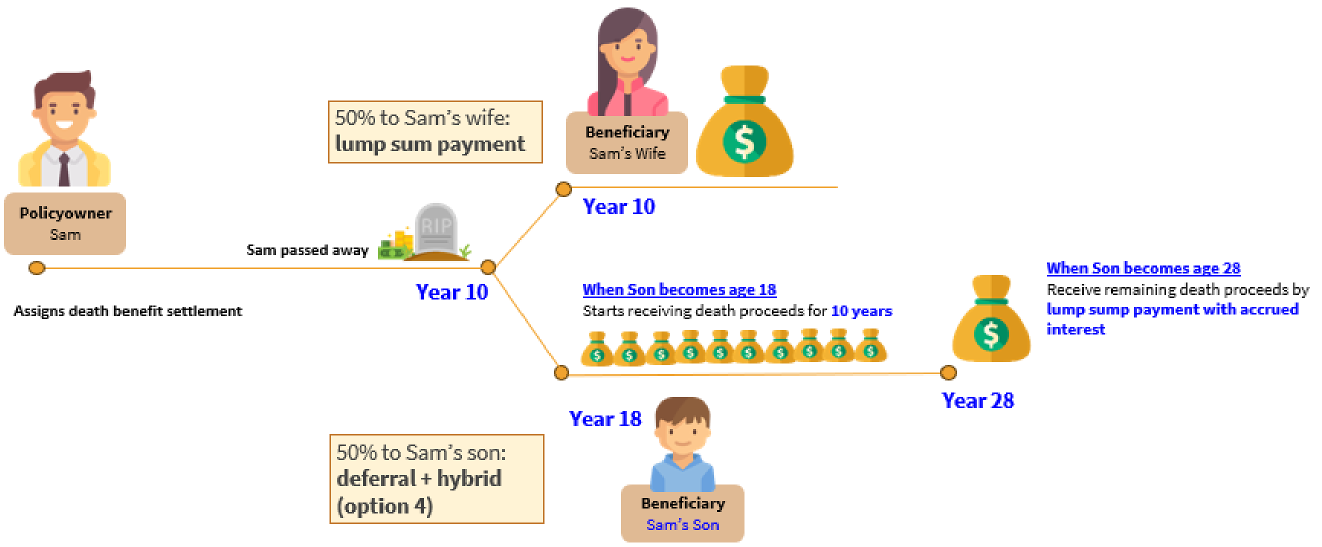
For option (2), (3) and (4), customers are free to choose any instalment term with annual or monthly payment.

Different Death Benefit Settlement Arrangement to Different Beneficiaries

Giving policy owner the flexibility to tailor the settlement arrangement to meet the specific needs of their beneficiaries.

Accumulate the unpaid death proceeds **with lock-in interest**

For any death proceeds yet to be paid, it will accrue with interest based on the non-guaranteed interest rate&. The crediting interest rate would be **locked in** on the claim approval date until the full amount of death proceeds has been paid out^. Accrued interest (if any) will be paid together with the last instalment.



For details, please refer to "6.12 Details of Death Benefit Settlement Option".

*Not applicable for Compassionate Benefit or when this policy has been assigned as collateral

^Subject to prevailing administration rule upon claim approval

&The interest rate is non-guaranteed and varies by policy currencies (the current interest rate is 0.5% p.a. for GBP and EUR and 2.0% p.a. for other currencies)

2.13 Extended Grace Period Benefit

Same as FortuneXtra

Major life events, both good and bad, can interrupt the original plans. Therefore, **starting from the 2nd policy year**, policy owners can apply to **extend the grace period for up to 365 days** for premium payments if any one of the specified events listed below occurs during the premium payment term of the basic plan.

Starting from the 2nd policy year

If the following events happen to the policy owner:

Please note:

- Only applicable to individual-owned policies
- If the application is due to redundancy or being laid off, the policy owner must be a Hong Kong identity card holder
- Extended Grace Period Benefit can be claimed once only under the policy. In respect of a Converted Policy or Segregated Policy, the Extended Grace Period Benefit will only be available if such benefit has not been applied for and approved by us under any preceding policy
- Policy owner must pay the premium before the extended grace period ends; otherwise, if the premium remains unpaid upon the expiration of the Extended Grace Period, the premium shall be in default and the Automatic Premium Loan will apply and may result in policy termination

For details, please refer to "6.13 Details of Extended Grace Period Option".

2.14 Corporate-owned Policies

Same as other savings products

To fulfill needs of corporate customers, corporates can apply WealthAhead II for Corporate Financial Planning purpose to meet the company's financial needs on wealth accumulation, and to enhance financial resilience for unexpected circumstances. Moreover, corporates could utilize WealthAhead II as Talent Retention to provide employee benefit to retain, motivate, and reward their employees.

	Corporate Financial Planning	Talent Retention
Owner	Company	Company
Insured	Valuable employee	Employee (any position)
Beneficiary	Company	Insured's estate/parent/spouse/child
Change of Insured	Allowed to change to another valuable employee	Allowed to change to another employee (any position)
Change of Beneficiary	Not allowed	Allowed to change to insured's estate/parent/spouse/child
Flexi Continuation Option	Allowed to designate another valuable employee as contingent insured	Not allowed

Reminder:

1) The following features do not apply to policies owned by corporates: the Heritage Protector Option, Flexi Care Option, Flexi Continuation Option (not applicable to corporate-owned policies for talent retention purposes) and Extended Grace Period Benefit.
2) Flexi Continuation Option is only applicable to policies for corporate financial planning purposes.
3) If a corporate policy owner opts for Wealth Master Service, the periodic withdrawals will only be paid to the policy owner / insured / beneficiary.

For details, please refer to "6.14 Details of Corporate-owned Policies".

2.15 Summary of Key Role Requirements

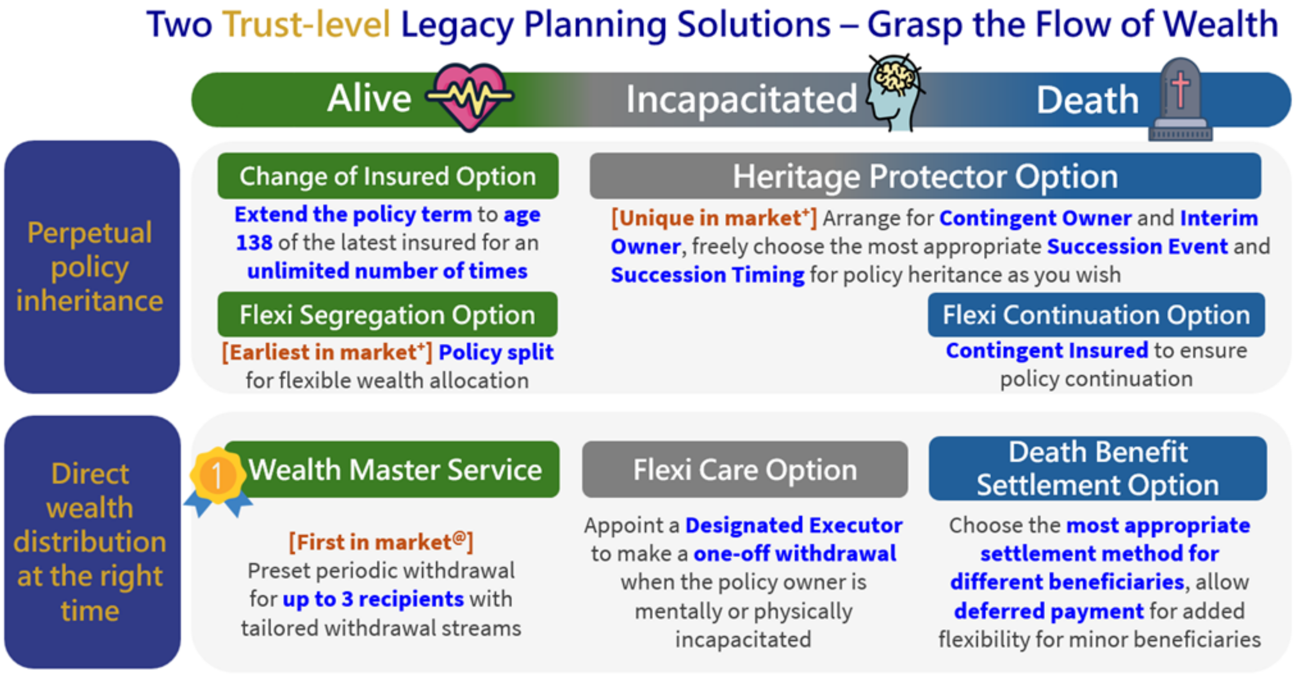
The below aims to serve an overview of different roles under various product features, for details of each role, please refer to relevant sections.

	Heritage Protector Option	Flexi Continuation Option	Change of insured Option	Flexi Care Option	Wealth Master Service
Relevant Key Role	Contingent owner, Interim owner	Contingent insured	Insured	Designated executor	Withdrawal recipient(s)
Earliest Effective	After policy inception	After policy inception	1st policy anniversary	After policy inception	3rd policy anniversary
Applicable to Corporate-owned policies	×	For Corporate Financial Planning only	✓	×	✓ Withdrawal recipient must be the policy owner/insured/ beneficiary
Benefits	Appoint a contingent owner and, if necessary, an interim owner, to ensure smooth change of ownership upon selected succession event and at the desirable timing via choosing: <u>Succession Event Option</u> (1) Death; or (2) Death / Incapacity <u>Nomination Option</u> (A) Instant; or (B) Designated Age	Designate a contingent insured and assign policy value to be paid as compassionate benefit and/or for further accumulation in the policy upon the death of the existing insured	Immediate change of insured with policy term extended to new insured's age 138	Designated executor to receive one-off designated withdrawal if Loss of Capacity for Independent Living or Mental Incapacitation Event of policy owner occurs	Set up standing instruction for periodic withdrawals to up to 3 withdrawal recipients according to the desirable withdrawal amount and withdrawal period
Age Requirements at Designation	<u>Nomination Option (A)</u> • Contingent owner must be ≥ age 18 <u>Nomination Option (B)</u> • Designated age of contingent owner must be ≥ age 18; and • Interim owner must be ≥ age 21	Contingent insured must be < age 138	<u>Regular Death Benefit</u> • New insured must be ≤ age 65 <u>Superior Death Benefit</u> • New insured must be ≤ age 60; and • New insured must be ≤ initial insured's age + 10	Designated executor must be ≥ age 18	As at the time of the first withdrawal payment, the withdrawal recipient must be ≥ age 18

	Heritage Protector Option	Flexi Continuation Option	Change of insured Option	Flexi Care Option	Wealth Master Service
Relationship Requirements with policy owner **Note: We will review the relationship requirements from time to time and make adjustments if necessary. The Company reserves the right to conduct review from time to time in accordance with AML or other regulatory or internal guidelines and reserves the right to collect necessary relationship proof and other supporting documents.**	**Contingent owner** Must be the direct family member: 1) Spouse 2) Sibling 3) Parent 4) Child 5) Grandparent 6) Grandchild 7) Parent-in-law 8) Other relationship as accepted by the Company **Interim owner** Policy owner's spouse, parents, child, grandparents, siblings, fiancé/fiancée, grandchildren, stepchildren, parents-in-law and other relationship as accepted by the Company	**Individual-owned policies:** 1) Own-self 2) Spouse 3) Juvenile Child (< age 18) 4) Grandchild or great-grandchild (< age 18) 5) Other relationship as accepted by the Company Note: For Flexi Continuation Option, if owner = insured, the contingent insured shall be in any of the above relationship with the contingent owner instead of policy owner, for details, please refer to section "6.9.2 Application Requirements of Designation of Contingent Insured" **Corporate-owned policies:** Employee or executive of the owner		Policy owner's spouse, parents, child, grandparents, siblings, fiancé/fiancée, grandchildren, stepchildren, parents-in-law and other relationship as accepted by the Company	
MCV Verification	**Change of policy owner on or before 1st policy year** Direct family member: × Non-direct family member: ✓ **Change of policy owner after 1st policy year** ×	×	×	×	×

2.16 Illustrative Examples of Legacy Planning Arrangement

WealthAhead II encompasses a trust-like design^, providing multiple product features to allow customers to plan for their wealth distribution and policy inheritance at different life stages in advance, ensuring the policy will be securely passed on to the ideal person(s) at the right time. Below are some useful examples for reference.



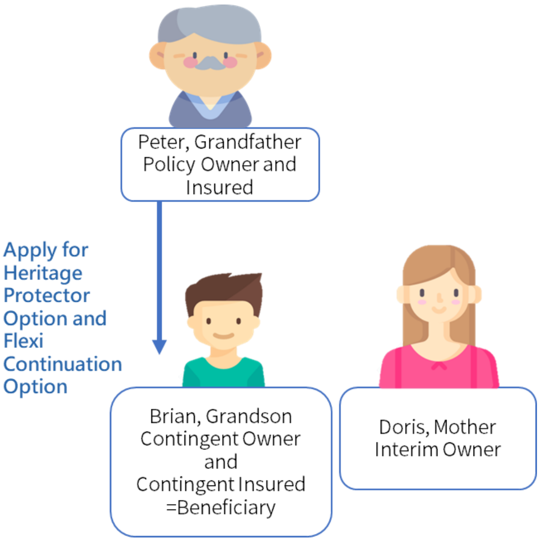
^"Trust-like" indicates that the design concept of WealthAhead II draws from the flexibility and precision of a trust, but does not imply it is equivalent to a trust product

+ The comparison is based on similar participating savings plans provided by key competitors in market, with reference to the information as of Jul 2025.

@ The information refers to the service of periodic withdrawal with up to 3 recipients of withdrawal payments. The information refers to Hong Kong market only and is based on a comparison of periodic withdrawal arrangements offered by insurers for Long-Term Businesses as defined by the Insurance Authority in the Register of Authorised Insurers in Hong Kong as of Jul 2025.

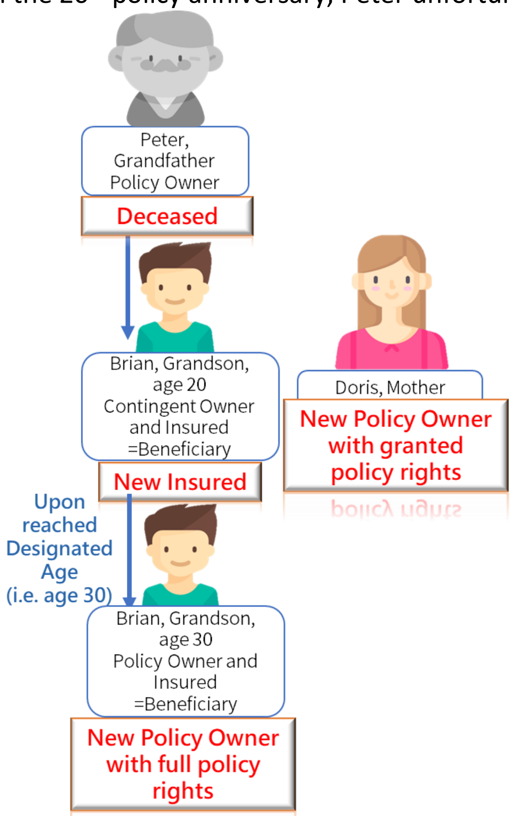
Example 1: Gift to the juvenile grandchild when he is matured

On the 1st policy anniversary, Peter applies to designate contingent insured, contingent owner and interim owner



Policy Owner	Peter
Insured	Peter
Nomination Option	(B) Designated Age
Succession Event Option	(2) Death / Incapacity
Contingent Owner (CO)	Brian (Peter's grandson), Age 0 at the time of designation
Designated Age	Age 30
Interim Owner	Doris (Brian's mother)
Maximum Annual Withdrawal Amount	10% of total cash value (partial surrender allowed)
Contingent Insured (CI)	Brian
Compassionate Benefit	0%
Insurable Interest	Required between CO and CI since policy owner = insured
Beneficiary designation	All the beneficiary(ies) designated previously will be revoked automatically and Brian (CO) becomes the beneficiary

On the 20th policy anniversary, Peter unfortunately passes away



(1) As the contingent owner (i.e. Brian) is only age 20 and **<u>has not yet reached the designated age</u>**, interim owner (i.e. Doris) submits relevant documents to **<u>temporarily take over the policy</u>**.

(2) Flexi Continuation Option application is deemed to have been made upon AXA receipt notice of the insured's death (i.e. Doris as interim owner cannot choose to submit death claim).

(3) After the replacement of policy owner & insured is approved, Doris becomes the policy owner with **<u>granted policy rights</u>** while Brian becomes the insured to continue this policy.

(4) Doris can withdraw up to 10% of total cash value annually according to the chosen withdrawal method, subject to the minimum withdrawal requirement and after policy inception notional amount requirement at that time, but cannot exercise / change other policy options.

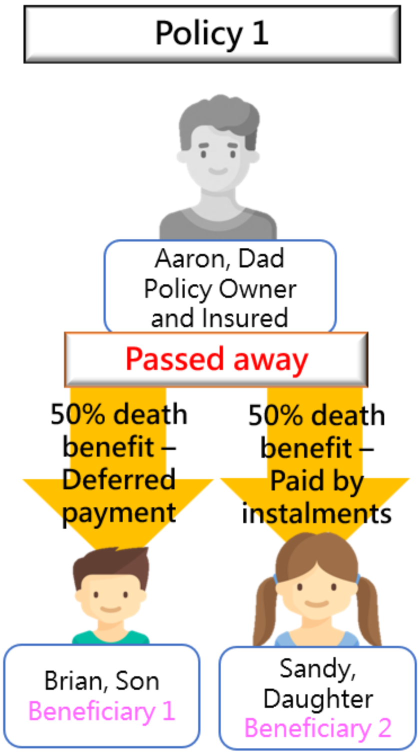
(5) Upon Brian attaining age 30, he should submit request to replace Doris and become the policy owner with full policy rights.

Example 2: Flexibly allocate wealth depending on family's needs

On the 10th policy anniversary:

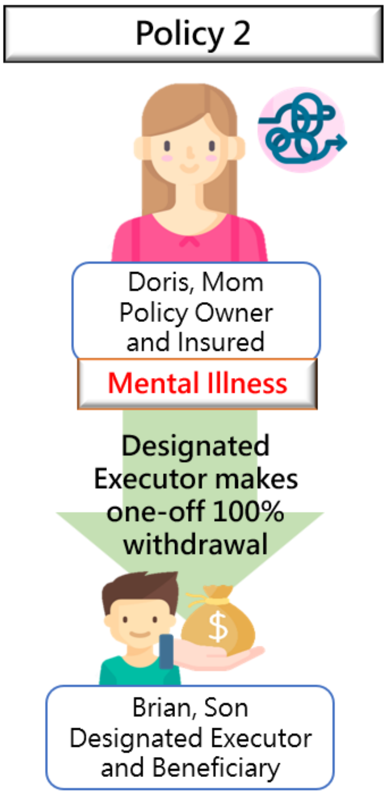
1) Aaron exercises the Flexi Segregation Option to transfer 50% of the total cash value to another policy (Segregated Policy) and changes the policy owner and insured of the policy to his wife, Doris.
2) After Doris takes up the Segregated Policy, she applies for the Flexi Care Option and designates her son Brian to become the designated executor.

	Original Policy (Policy 1)		**Segregated Policy (Policy 2)**	
Policy owner	Aaron		Doris (Aaron's wife)	
Insured	Aaron		Doris (Aaron's wife)	
Designated Executor	Not applicable		Brian (Aaron's son)	
Designated withdrawal percentage	Not applicable		100%	
Designated beneficiary	Beneficiary 1: Brian (Aaron's son), Age 18 Beneficiary 2: Sandy (Aaron's daughter), Age 15		Brian (Aaron's son)	
Death Benefit Settlement Option	Allocation percentage	Option	Allocation percentage	Option
- Beneficiary 1	50%	Defer first death benefit payment until son reaches age 30. Then, paid in one lump sum.	100%	Lump Sum Payment
- Beneficiary 2	50%	Paid by annual instalments for 20 years immediately after death		



Policy 1

(1) On the 15th policy anniversary, Aaron unfortunately passes away.
(2) When we received the notification of the policy owner and insured's death, the death benefit will be distributed according to the instructions made by the policy owner while he was alive. As Beneficiary 1 (Brian) has not attained the designated age, 50% of the death benefit will be deferred until he reaches age 30 after which it will be paid in one lump sum. The other 50% of the death benefit will begin to be distributed to Beneficiary 2 (Sandy) in annual instalments. Any unpaid death benefit during this period will be accrued at a non-guaranteed interest rate. The unpaid death benefit balance and accumulated interest on the balance (if any) will be paid in one lump sum with the final payment. The non-guaranteed interest rate will be lock-in on the claim approval date.

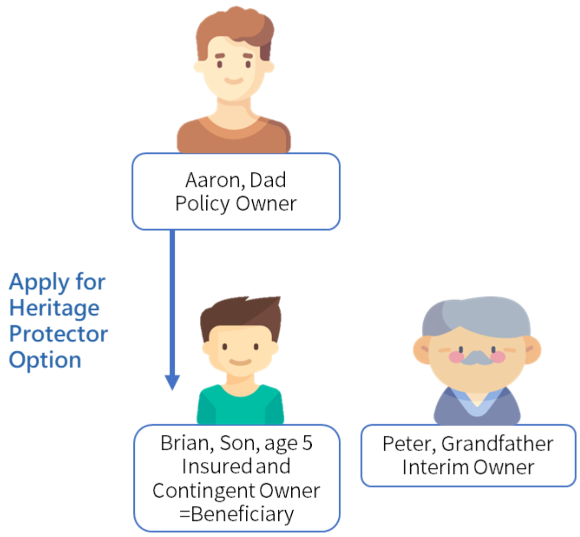


Policy 2

(1) On the 25th policy anniversary, Doris unfortunately is diagnosed with a mental illness. Brian submits documents to AXA to prove that Doris is mentally incapacitated.
(2) As the designated executor, Brian applies to receive the one-off withdrawal of 100% of the policy value to support his incapacitated mother. Once withdrawn, the policy will terminate.

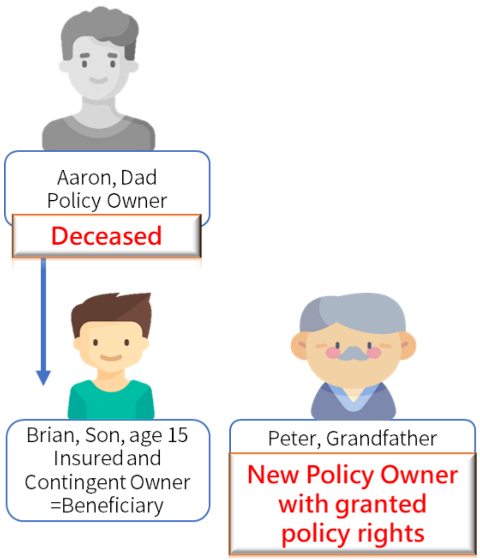
Example 3: Single parent to pass on legacy to his child

On the 1st policy anniversary, Aaron applies to designate the contingent owner and interim owner



Policy Owner	Aaron
Insured	Brian
Nomination Option	(B) Designated Age
Succession Event Option	(1) Death
Contingent Owner (CO)	Brian (Aaron's son), Age 5 at the time of designation
Designated Age	Age 30
Interim Owner	Peter (Aaron's father)
Maximum Annual Withdrawal Amount	5% of total cash value (no partial surrender allowed)
Insurable Interest	Not required since policy owner ≠ insured
Beneficiary designation	All the beneficiary designated previously will be revoked automatically and Brian (CO) becomes the beneficiary

On the 10th policy anniversary, Aaron passes away



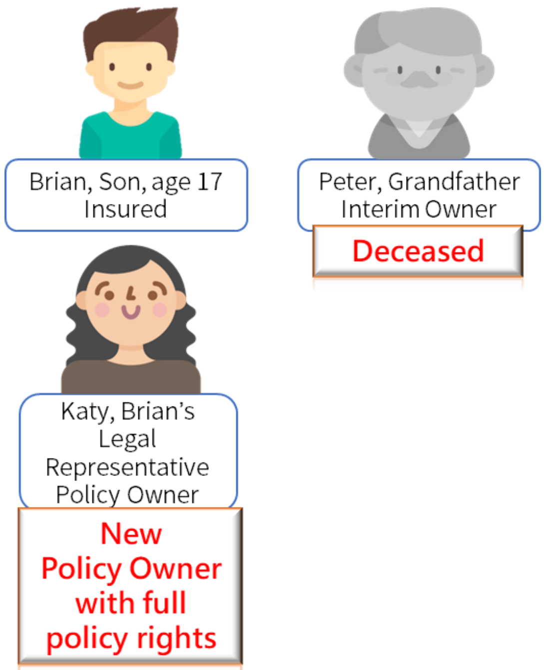
(1) As the contingent owner (i.e. Brian) is only age 15 and has not yet reached the designated age, interim owner (i.e. Peter) submits relevant documents to replace the deceased policy owner.

(2) After that, Peter becomes the policy owner with granted policy rights

(3) Peter can withdraw up to 5% of total cash value annually without triggering partial surrender, subject to the minimum withdrawal requirement and the after policy inception minimum notional amount requirement at that time, but cannot exercise / change other policy options.

When the interim owner passed away when the contingent owner has NOT taken up the policy ownership

Scenario 1: If contingent owner is younger than age 18…

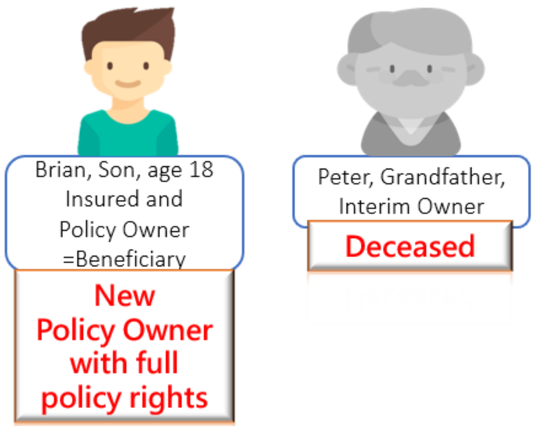


On the 12th policy anniversary, the interim owner unfortunately passed away:

(1) As the contingent owner (Brian) is of age 17 is not yet an adult, his legal representative, Katy, is entitled to the policy ownership, regardless of the designated age.

(2) Katy becomes the policy owner with full policy rights and the ownership of the policy shall be transferred to Brian when Brian has attained the age 18.

Scenario 2: If contingent owner is age 18 or above…



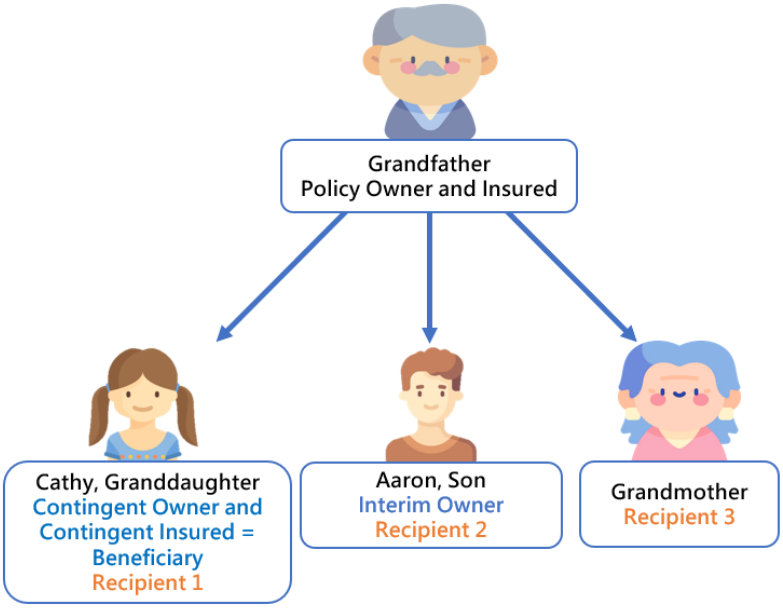
On the 13th policy anniversary, the interim owner unfortunately passed away:

(1) Brian (who is age 18) is entitled to the policy ownership, regardless of the designated age.

(2) Brian becomes the policy owner with full policy rights at age 18.

Example 4: Taking care of the needs of three generations at the same time

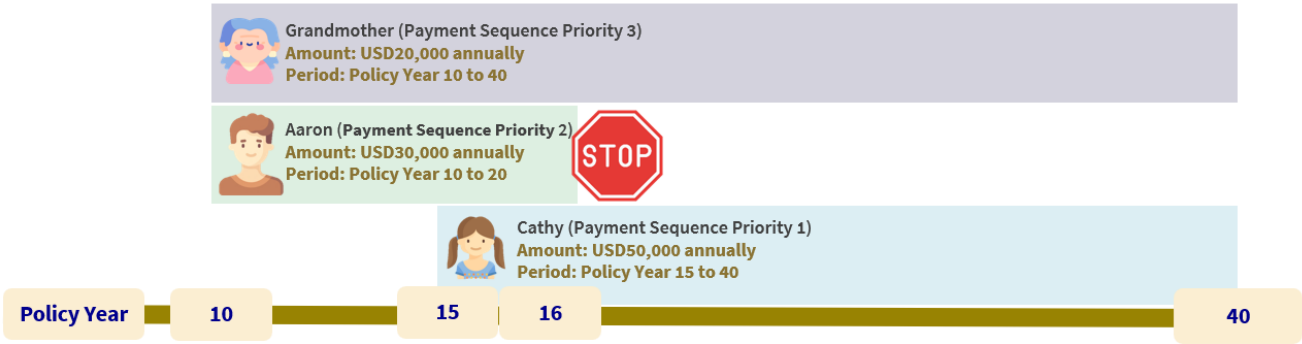
On the 3rd policy anniversary, grandfather applies to designate the contingent insured, contingent owner, interim owner and exercises the Wealth Master Service.



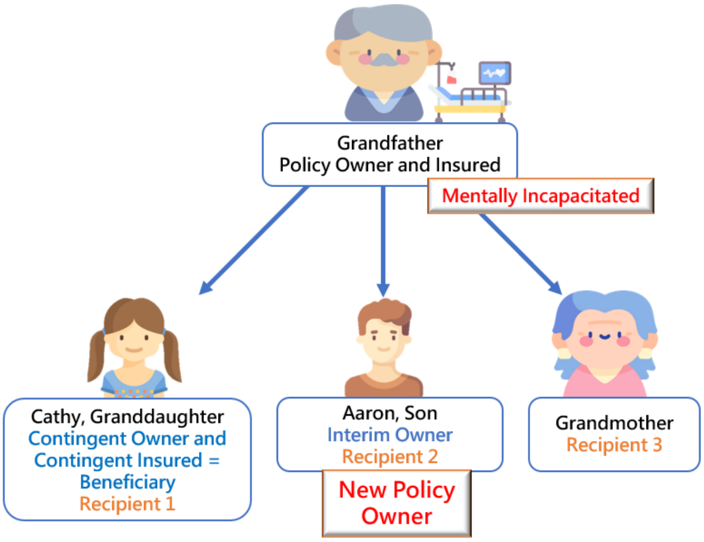
Policy Owner	Grandfather	
Insured	Grandfather	
Apply for Heritage Protector Option and Flexi Continuation Option		
Nomination Option	(B) Designated Age	
Succession Event Option	(2) Death / Incapacity	
Contingent Owner (CO)	Cathy (Granddaughter), Age 15 at the time of designation	
Designated Age	Age 40	
Interim Owner	Aaron	
Contingent Insured (CI)	Cathy (Granddaughter)	
Compassionate Benefit	0%	
Insurable Interest	Required between CO and CI since policy owner = insured	
Beneficiary designation	All the beneficiary designated previously will be revoked automatically and Cathy (CO) becomes the beneficiary	
Apply for Wealth Master Service		
Payment Sequence Priority	**Recipient**	**Period**
Payment Sequence Priority 1	Recipient 1 – Cathy (Granddaughter, Age 15 at the time of designation)	Policy year 15 to 40
Payment Sequence Priority 2	Recipient 2 – Aaron	Policy year 10 to 20
Payment Sequence Priority 3	Recipient 3 – Grandmother	Policy year 10 to 40

On the 10th policy anniversary, the Wealth Master Service instruction that was pre-set earlier will begin to take effect and will be distributed based on the payment sequence priority as indicated by the policy owner. The first payment will be distributed to Aaron (Payment Sequence Priority 2), then to Grandmother (Payment Sequence Priority 3). Then at the 15th policy anniversary, Cathy will start to receive the withdrawals (Payment Sequence Priority 1).

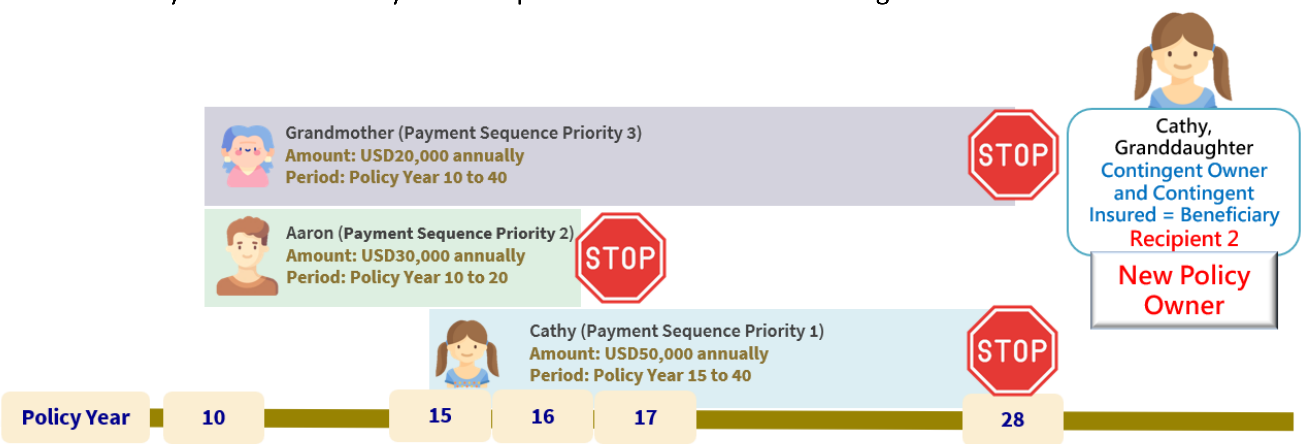
On the 16th policy anniversary, the payment will be first distributed to Cathy (Payment Sequence Priority 1), then to Aaron (Payment Sequence Priority 2). As the policy values are insufficient to support the distribution to Aaron (Payment Sequence Priority 2), Aaron's withdrawal will terminate with the distribution then scheduled to be made to Grandmother (Payment Sequence Priority 3) based on the payment sequence priority.



On the 17th policy anniversary, Grandfather has become mentally incapacitated.



(1) As Contingent Owner (Cathy) is only aged 29, she has not reached the designated age. Therefore, interim owner (Aaron) submits documents to AXA to prove that Grandfather is mentally incapacitated and to replace the policy owner to become the new policy owner.
(2) While the policy is owned by interim owner, the pre-set withdrawal instructions made by the original policy owner (Grandfather) are still valid. Recipient 1 (Cathy) and Recipient 3 (Grandmother) can continue to receive the withdrawals.
(3) Once Cathy reaches age 40 (reached designated age), Cathy should apply to become the policy owner with full policy rights.
(4) At the same time, the pre-set withdrawal instructions made by the original policy owner (Grandfather) will automatically terminate. Cathay can set up the Wealth Master Service again as needed.



3. Summary of Market Comparison

Important Note: The information below is based on the illustration and product brochure of the respective companies as of August 2025. The information stated below does not represent the complete information of the products. They are subject to change at any time without notice. Important Note: Please note that the above projected returns have been adjusted based on the regulatory cap of 6.0% (HKD) / 6.5% (non-HKD) for the illustrated internal rate of return for Surrender Value at the point of sale. However, the guideline will not impact the actual policy returns. The above projected values are for reference only and based on certain assumptions, including but not limited to annual premium payment mode is chosen, all premiums are paid in full when due, no benefits have been paid, no levy on insurance premiums is included throughout the term of the policy and no withdrawals or other policy options have been exercised. These projected values are not guaranteed and are projected based on the Company's current assumed bonus scale. The actual values may be higher or lower than these projected values. The information above is based on the illustrations of similar participating savings plans provided by key competitors in Hong Kong as of August 2025. They are subject to change at any time without notice. AXA does not bear any liability for any errors and omissions.

For details on the market comparison of other currencies or premium payment terms, please refer to "Appendix III. Comparison of Similar Products in the Market – Returns".

4. Internal Product Proposition

	10 years	100
Payment Mode	Annual / Semi-Annual / Monthly	
Volume Discount	Not Applicable	
Modal Factor	Monthly – 0.09 Semi-Annual – 0.52 Annual – 1.00	
Policy Fee	Not Applicable	

6.3 Profit Sharing and Asset Allocation

(a) Profit Sharing

WealthAhead II is a participating life insurance. The Company will pool together the policyholders' premiums to form a participating fund and invest. The Company will make deductions for expenses, surrenders, claims, withdrawal, asset transfer related to the exercised Currency Conversion Option, profit sharing and charges from this participating fund, of which the charges include profits and costs for operating this participating fund. The value of this participating fund is called the "asset share". It is an important reference to help us determine the bonuses and interest.

When the Company determine the amount of bonuses and interest, the Company will take into account the following:

a) the asset share;
b) both the current and the expected future amount of guarantees; and
c) the returns we expect the participating fund to earn in the future.

WealthAhead II's profit and loss arising from investment, claims, expenses, policy persistency and utilisation of policy options will impact the asset shares, and hence the bonuses and interest of the policy owners. To align the Company interest with the policy owners' interests, the Company aims to allocate not less than 90% of the surplus with policy owners, while the remaining will become another part of the Company's profits.

(b) Asset Allocation

WealthAhead II is a participating life insurance plan, the target asset allocations are as follows:

(a) asset share (excluding the part on currency accounts)

Assets Class^	Allocation*
Government bonds, corporate bonds and other credit instruments	20% - 80%
Growth Assets	20% - 80%

(b) asset share of currency accounts

Assets Class#	Allocation*
Government bonds, corporate bonds and other credit instruments	100%

^ The fixed income allocation includes sub-asset classes like (i) developed market investment-grade credit, (ii) emerging market investment-grade credit, (iii) high yield credit and (iv) developed market government bonds. The growth assets allocation includes sub-asset classes like (a) listed equities, (b) private equities, and may include (c) real estate and (d) hedge funds.

The fixed income allocation includes sub-asset classes like (i) developed market investment-grade credit and (ii) developed market government bonds.

* The total actual allocation will be equal to 100%, and there may be some holdings in cash. In addition, we may accept certain degree of deviation from the above targets across asset classes in order to manage the portfolio efficiently or to optimize the portfolio based on the prevailing market condition and views.

6.4 Details of Currency Conversion Option

The application process in the iBuy system is the same as FortuneXtra. For details, please refer to FortuneXtra's product handbook.

Application Procedure of Currency Conversion Option

Illustration Document for Currency Conversion Option Generation Requirement :

- Applicable **within 30 days** following each policy anniversary
- **No Indebtedness or premium outstanding** on the policy
- No policy transaction or application after the policy anniversary

Financial consultants can generate the (1) Illustration Document and (2) Application Form for Currency Conversion Option on iBuy

If the Currency Conversion Option is exercised during the premium payment term, an Affordability Assessment will be required if the premiums payable is higher than before

Customers are required to agree and sign (1) the Illustration Document and (2) the Application Form (the exchange rate stated in the signed Illustration Document will be used for currency conversion)

iBuy SUBMIT

Customers must submit (1) the Illustration Document and (2) the Application Form for Currency Conversion within 30 days from the relevant policy anniversary and within 7 days from the date the Illustration Document is generated

A new policy number will be assigned to the Converted Policy. The currency conversion confirmation letter will be issued together with the new policy documents

Key Notes on Currency Conversion Option

Before conversion

- Application must be submitted within **30 days** from each policy anniversary **starting from the 3rd policy anniversary**
- **Unlimited times$** of currency conversion, but the notional amount of the relevant policies **must not be lower than the after policy inception minimum notional amount requirement**
- Customer must **sign and submit the Illustration Document for the New Policy Currency and Application Form for Conversion**
- The policy has **no Indebtedness**, no outstanding premium or advance payment
- Once application has been submitted, **it cannot be reversed or withdrawn**

After conversion

- The policy will be converted into a **policy denominated in a different currency of a plan as we may designate**
- After currency conversion, **the existing policy will be terminated**
- Each Converted Policy will be treated as a new policy and will **operate independently** (Except for specified situations^)
- **The policy date will remain the same** for the Converted Policy, **the commission will be calculated according to policy year (No PVI, NBC, etc. will be counted)**
- After **currency conversion**, all attached supplements will be attached to the **Converted Policy**; if they are **not available in the new policy currency, the supplements will be terminated**

$ Only one application for currency conversion can be made within one Policy Year; and the application must be submitted within 30 days from the policy anniversary.

^ The specified situation is, in respect of a Converted Policy or Segregated Policy, the initial insured shall refer to the insured named in the policy specifications at the commencement of the policy with the earliest issue date among the preceding policies. The Extended Grace Period Benefit will only be available if such benefit has not been applied for and approved by the Company under any preceding policy.

Reminder:

The notional amount, guaranteed cash value, reversionary bonus, terminal bonus and any future premiums of the Converted Policy may be higher or lower than the currency equivalent of the original policy currency.

6.4.1 Application Requirements of Currency Conversion Option

Applicable policies	• Applicable to all policies
Application Period	• Can exercise starting from the 3rd policy anniversary • Application must be submitted within 30 days from each policy anniversary
Max No. of Application	• No limit on the number of exercises throughout the policy period • Only allowed to submit conversion application once for each policy year
Application Procedure	1. Applicable within 30 days following each policy anniversary, financial consultants can generate the Illustration Document for Currency Conversion Option and Application Form for Currency Conversion Option through iBuy 2. Customers need to agree and sign the Illustration Document for Currency Conversion Option and Application Form for Currency Conversion Option 3. The exchange rate applicable upon currency conversion shall refer to the prevailing exchange rate as stated in the Illustration Document of Converted Policy signed by customers, then submitted and approved by us 4. Customers must submit the signed Application Form and Illustration Document for Currency Conversion Option within 30 days from the relevant policy anniversary and within 7 days from the date the Illustration Document for Currency Conversion Option is generated 5. Premiums payable may be reduced or increased if Currency Conversion Option is exercised during the Premium Payment Term. Affordability assessment is required if the premiums payable is higher than before
Currency Selection	1. New Policy Currency shall not be the same as the Policy Currency of existing policy at the time of application 2. The currency of Global Currency Account of Converted Policy shall not be the same as the New Policy Currency 3. A currency will not be available for selection if it is demonetized by the issuance country or region at the time of conversion
Other Requirements	1. The policy has no Indebtedness at the time of our approval of application 2. All premiums of the policy which are due have been paid and there is no advance payment of premiums under the policy (whether under the Basic Plan or any supplement(s) to the Basic Plan) 3. The application cannot be withdrawn or changed once made 4. There has been no transaction or application for such transaction under the policy from the Policy Anniversary immediately before the date of the application for conversion to the date of our approval of such application which would have resulted or may result in a change of the policy value or the premium payable under the policy. Such transactions include without limitation withdrawal, reduction in the Notional Amount, exercise of the Policy Value Lock-in Option, exercise of the Flexi Continuation Option, Flexi Segregation Option or change in premium payment mode 5. The notional amount of the Converted Policy must not be lower than the after policy inception minimum notional amount requirement

6.6 Details of Wealth Master Service

6.6.1 Application Requirements of Wealth Master Service

<table>
<tr><td>Applicable policies</td><td>• Applicable to all policies</td></tr>
<tr><td>No. of Exercise Times</td><td>• Unlimited, but each recipient can only have one periodic withdrawal instruction as effective at the same time</td></tr>
<tr><td>Application Requirements</td><td>
• The policy owner must submit the periodic withdrawal application at least 30 days before the effective date of the withdrawal. Periodic withdrawals will start on the intended effective date and will continue until the designated withdrawal period ends or is terminated due to specific conditions
• This service is not applicable to interim owner
• Policy owner can:
<u>Set for each policy:</u>
o Number of recipients (up to 3) and their respective payment sequence priority;
o Payment frequency (monthly or annual); and
o Withdrawal option
<u>Set for each recipient:</u>
o Withdrawal amount;
o Withdrawal start year; and
o Withdrawal period
<table>
<tr><th>Periodic Withdrawal Options</th><th>Withdrawal sequence (withdrawal from the relevant account or value in the following order for each withdrawal under each option)</th><th>Earliest effective date #</th></tr>
<tr><td>1. Withdrawal of policy values (reduction of notional amount <u>allowed</u>)

Note: Notional amount may be reduced under this option</td><td>(i) Prime Currency Account*
(ii) Global Currency Account*
(iii) Cash value of reversionary bonus and cash value of its corresponding terminal bonus
(iv) Guaranteed cash value and cash value of its corresponding terminal bonus

Note: Notional amount will be reduced corresponding to the withdrawal under item (iv) above.</td><td>3rd policy anniversary</td></tr>
<tr><td>2. Withdrawal of policy values (reduction of notional amount <u>not allowed</u>)

Note: Notional amount will not be reduced under this option</td><td>(i) Prime Currency Account*
(ii) Global Currency Account*
(iii) Cash value of reversionary bonus and cash value of its corresponding terminal bonus</td><td>3rd policy anniversary</td></tr>
<tr><td>3. Withdrawal of policy value from lock-in account $</td><td>(i) Prime Currency Account*
(ii) Global Currency Account*</td><td>5th policy anniversary</td></tr>
</table>
The actual withdrawal payment date is the working day following the respective anniversary or monthiversary.
* The Prime Currency Account and the Global Currency Account are only available from the 5th policy anniversary.
$ For this service, the lock-in account refers to the Prime Currency Account and the Global Currency Account.
</td></tr>
<tr><td>Withdrawal Recipient Requirements</td><td>
• The policy owner may nominate up to 3 recipients (including the policy owner) and designate different withdrawal instructions for each recipient
• The same elected withdrawal option and withdrawal frequency would be applicable to all withdrawal recipients
• For individual-owned policies, i) the withdrawal recipient must be at least age 18 on the first payment date and ii) must meet the relationship requirement with policy owner e.g. spouse, parents, child, grandparents, siblings, fiancé/fiancée, grandchildren, stepchildren, parents-in-law and other relationship as accepted by the Company
</td></tr>
</table>

	• For corporate-owned policies, i) the withdrawal recipient must be at least age 18 on the first payment date and ii) the withdrawal recipient can be the policy owner / insured / beneficiary Note: We will review the relationship requirements from time to time and make adjustments if necessary. The Company reserves the right to conduct review from time to time in accordance with AML or other regulatory or internal guidelines and reserves the right to collect necessary relationship proof and other supporting documents.
Periodic Withdrawal Instruction	• If there are multiple periodic withdrawal instructions to be processed on the relevant withdrawal date, withdrawals will be processed in the payment sequence priority as specified by the policy owner • Periodic withdrawal to each withdrawal recipient is independent, meaning if the withdrawal for one recipient is invalid or has been terminated, it will not affect payments to other recipients • Each withdrawal amount for each recipient must not be less than HKD1,000 or equivalent (the Company may determine the minimum amount from time to time) • The remaining notional amount after withdrawal must not be lower than the after policy inception minimum notional amount requirement (the Company may determine the minimum amount from time to time)

Cessation of Wealth Master Service	Wealth Master Service will be rejected/terminated on the occurrence of the earliest of the following:
	• <u>On application date:</u>
	  o there is policy loan balance / outstanding premium
	  o there is pending change transaction that would impact the policy value including but not limited to other periodic withdrawal requests, loan requests, reduction in notional amount, claims for basic plan, Flexi Continuation Option, Flexi Segregation Option or Currency Conversion Option requests, etc
	  o Owner is interim owner
	  o There is existing periodic withdrawal instruction record for the same recipient
	
	• <u>On withdrawal date:</u>
	  o If the withdrawal is not supportable under the selected withdrawal option, e.g.
	    ▪ if the notional amount of the basic plan would fall below the after policy inception minimum notional amount requirement after withdrawal (applicable to Option 1)
	    ▪ If the rider's sum insured will be decreased or the rider will be terminated after withdrawal due to the reduction of notional amount of the basic plan (applicable to Option 1)
	
	• <u>Other situations:</u>
	  o Owner submits cancel requests for periodic withdrawal
	  o Change of owner (excluding interim owner)
	  o Flexi Segregation Option, Flexi Continuation Option, Currency Conversion Option or Extended Grace Period Benefit is exercised
	  o This standing instruction has expired (i.e. reached the chosen withdrawal end year)
	  o Policy is terminated
	  o Collateral assignment/premium financing (subject to bank approval)
	  o Policy loan (including APL)

MCV Verification	Not required

<u>Reminder:</u>

Wealth Master Service is an administrative service arrangement offered by the Company and not a plan feature of WealthAhead II. Any application for the service is subject to the Company's approval at its sole and absolute discretion, any applicable laws, regulations and guidelines and the administrative rules of the Company from time to time. We reserve the right to amend the terms and conditions of the Wealth Master Service from time to time.

6.7 Details of Flexi Segregation Option

6.7.1 Application requirement of Flexi Segregation Option

Applicable policies	Applicable to all policies
Application Period	From the 1st policy anniversary while the policy is still in-force
Max No. of Application	No limit within the same policy year and throughout the entire policy term
Segregation Percentage	1%-99% (The notional amount of both existing policy and Segregated Policy must not be lower than the after policy inception minimum notional amount requirement)
Required Documents	Relevant signed policy service application form
Other Requirements	1. After exercise, the notional amount of both existing and Segregated Policy must not be lower than the after policy inception minimum notional amount requirement 2. The application cannot be withdrawn or changed once made 3. This policy has no Indebtedness at the time of Company's approval of application from customers 4. All premiums of this policy which are due have been paid and there is no advance payment of premiums under this policy (whether under the Basic Plan or any supplement(s) to the Basic Plan) 5. If there is any outstanding application for any transaction under this policy (including but not limited to withdrawal, reduction in the notional amount, exercise of the Policy Value Lock-in Option, the Flexi Continuation Option or the Change of Insured Option, and change in premium payment mode (if applicable)), the Company will not process the application for Segregated Policy until such transaction has become effective or such application has been withdrawn
Medical Underwriting	Not required
MCV Verification	Not required

6.7.2 Impact upon successfully applied for Flexi Segregation Option

Impacts on Existing Policy and issuance of New Policy (Segregated Policy)	1. When the Flexi Segregation Option takes effects, the policy value of the existing policy will be transferred to another policy (Segregated Policy) based on the segregation percentage 2. The notional amount of the existing policy will be reduced in accordance with the segregation percentage. The guaranteed cash value, the face value and the cash value of the reversionary bonus, the face value and cash value of the terminal bonus, the value of the Prime Currency Account, the value of the Global Currency Account, the benefits and the premiums payable (if applicable) under the existing policy will also be reduced accordingly 3. The policy effective date of the Segregated Policy will be the same as the existing policy 4. The notional amount of the Segregated Policy will be equal to the notional amount of the existing policy multiplied by the segregation percentage. The premiums payable (if any) and policy values of the Segregated Policy will be determined based on the notional amount of the Segregated Policy 5. The terms and conditions of the Segregated Policy shall be the same as the existing policy, unless otherwise specified 6. The account value of Future Premium Deposit Account will be transferred to the Segregated Policy based on the segregation percentage
Arrangement of The Supplements	1. All supplements will continue to be attached to the existing policy 2. The reduction in the Notional Amount may induce a reduction of the supplement amounts pursuant to the Company's then prevailing rules 3. If the supplement amounts fall below the minimum amount as may be determined by the Company from time to time, the relevant supplement will be terminated
Arrangement of Policy Number	The policy number of existing policy will remain unchanged; a new policy number will be assigned to the Segregated Policy

6.8 Details of Heritage Protector Option

6.8.1 Overview of Heritage Protector Option

	Scenario 1 **Policy owner ≠ insured**	**Scenario 2** **Policy owner = insured**
When designating the contingent owner		
Application Period	After policy inception **For customers' convenience, they can <u>submit their application at the time of policy application</u>. However, the application will <u>only be processed after policy inception</u>**	
Choose one of the <u>Succession Event Options</u> for changing policy ownership	**<u>Succession Event Option (1) - Death</u>** Policy ownership will be changed upon policy owner's death **<u>Succession Event Option (2) - Death / Incapacity</u>** Policy ownership will be changed upon the following events of the policy owner: (i) Death; or (ii) A Mental Incapacitation Event; or (iii) A Loss of Capacity for Independent Living	
Select one of the <u>Nomination Options</u>	**<u>Nomination Option (A) – Instant</u>** • If the succession event occurs, the contingent owner will replace the original policy owner and become the new policy owner • Contingent owner must be aged 18 or above **<u>Nomination Option (B) – Designated Age</u>** • If the succession event occurs after the contingent owner has attained the designated age as specified by policy owner, the contingent owner will become the new policy owner. • Otherwise, the **interim owner** will first take up the policy as policy owner with granted policy rights and the contingent owner will become the policy owner when he/she has reached the designated age • Designated age of contingent owner must be age 18 or above • Interim owner must be aged 21 or above	
Require designating a contingent insured at the same time?	Not required	Need to designate a contingent insured and a contingent owner **at the same time**; can designate the same person for these 2 roles
Insurable interest (upon designation and succession event)	No specific insurable interest is required	Contingent insured and contingent owner must have insurable interest
Impact to beneficiaries	**<u>If Nomination Option (A) – Instant is selected</u>**	
	• No impact	• Beneficiary will be revoked automatically • Contingent owner will become the beneficiary automatically
	<u>If Nomination Option (B) – Designated Age is selected</u>	
	• Beneficiary will be revoked automatically • Contingent owner will become the beneficiary automatically	
Upon succession event (Death or Death / Incapacity) occurs		
Impact to the policy – On insured	• Insured will not be affected	• Contingent insured will replace the insured and become the new insured if the succession event is death
Impact to the policy – On policy owner	**<u>When Nomination Option (A) – Instant is selected</u>** • Contingent owner will replace the policy owner and become the new policy owner **<u>When Nomination Option (B) – Designated Age is selected</u>** 1. <u>If contingent owner has NOT yet reached the designated age:</u> Interim owner will take over the policy with granted policy rights until contingent owner has reached the designated age to become the policy owner	

	2. If contingent owner has reached the designated age: Contingent owner will replace the policy owner and become the new policy owner

6.8.2 Application Requirements of designation of the contingent owner / interim owner

For customers' convenience, they can submit their application at the time of policy application. However, the application will only be processed after policy inception

Applicable policies	• Applicable to individual-owned policies
Application period	• After policy inception • The policy owner, contingent owner and interim owner (if applicable) must be of full mental capacity
Max. No. of applications	Unlimited, but only one individual person can be designated as the contingent owner and interim owner (if applicable) respectively at anytime
Succession Event Options	• Policy owner has to choose one of the following Succession Event Option for changing policy ownership to contingent owner: ➢ **Succession Event Option (1) – Death** – upon policy owner's death ➢ **Succession Event Option (2) – Death / Incapacity** – upon any of the following events of the policy owner: a) Death; or b) A Mental Incapacitation Event*; or c) A Loss of Capacity for Independent Living^ * Mental Incapacitation Event refers to the condition of a (a) mental disorder or (b) mental handicap of the person concerned. A "mental disorder" means mental illness, a state of arrested or incomplete development of mind which amounts to a significant impairment of intelligence and social functioning which is associated with abnormally aggressive or seriously irresponsible conduct on the part of the person concerned, psychopathic disorder, or any other disorder or disability of mind which does not amount to mental handicap. A "mental handicap" means sub-average general intellectual functioning with deficiencies in adaptive behaviour. The condition must be certified by a registered medical practitioner. ^ Loss of Capacity for Independent Living refers to the loss of capacity for independent living of the person concerned as evidenced by the permanent inability to perform at least three of the ADLs#. The condition must be certified by a registered medical practitioner. Loss of Capacity for Independent Living caused by psychological or psychiatric related causes is excluded. #Activities of Daily Living (ADL) means any of the following activities: (a) Dressing – the ability to put on and take off clothing without assistance; (b) Toileting – the ability to use the toilet, including getting on and off without assistance; (c) Mobility – the ability to get in and out of a bed or a chair without assistance; (d) Continence – the ability to control bowel and bladder function; (e) Feeding – the ability to get food from a plate into the mouth without assistance; (f) Bathing and showering – the ability to bathe and shower without assistance
Nomination Options	• Policy owner must also choose one of the following Nomination Options and designate below specifics: ➢ **Nomination Option (A) – Instant** • Contingent owner ➢ **Nomination Option (B) – Designated Age** • Contingent owner • Designated age of the contingent owner • Interim owner • Withdrawal option and maximum annual withdrawal amount (a percentage of the latest total cash value as at the time of withdrawal) allowed for interim owner

Age Requirements	**<u>Nomination Option (A) – Instant</u>** • The contingent owner must be age 18 or above **<u>Nomination Option (B) – Designated Age</u>** • Policy owner must designate contingent owner and interim owner at the same time • The designated age of contingent owner must be of 18 or above • The interim owner must be age 21 or above
Relationship Between the Contingent Owner and Policy Owner	• The contingent owner must be the **direct family member** of policy owner: (i) Spouse (ii) Sibling (iii) Parent (iv) Child (v) Grandparent (vi) Grandchild (vii) Parent-in-law (viii) Other relationship as accepted by the Company
Insurable Interest Between the Contingent Owner and Insured / Contingent Insured at Designation and upon Change of Policy Ownership	• If policy owner ≠ insured, insurable interest is not required • If policy owner = insured, policy owner must designate contingent insured and contingent owner at the same time, while contingent insured and contingent owner need to have insurable interest. Contingent insured must be: (i) Contingent owner; or (ii) Contingent owner's spouse; or (iii) Contingent owner's child (below age 18); or (iv) Contingent owner's grandchild (under age 18); or (v) Other relationship as accepted by the Company
Relationship Between the Policy Owner and Interim Owner (if applicable)	• Policy owner's spouse, parents, child, grandparents, siblings, fiancé/fiancée, grandchildren, stepchildren, parents-in-law and other relationship as accepted by the Company
Impacts on Beneficiaries After Designation Of Contingent Owner and Interim Owner (if applicable)	**<u>Nomination Option (A) – Instant</u>** • If policy owner ≠ insured, beneficiaries will not be affected • If policy owner = insured, contingent owner will become the only beneficiary of the policy automatically **<u>Nomination Option (B) – Designated Age</u>** • Contingent owner will become the only beneficiary of the policy automatically
Other Requirements	• Written consent is required from: (i) Policy owner (ii) Assignee (if any) (iii) Irrevocable beneficiary (if any) • For policy electing Succession Event Option (2) – Death / Incapacity, the policy owner does not have an existing enduring power of attorney ("EPA") covering the policy
MCV Verification	• When designating a contingent owner: Not required • When replacing a policy owner: (Applicable within the 1st policy year) Not required for direct family members; Required for non-direct family members (Applicable after the 1st policy year) Not required

<u>No signature</u> from the contingent owner and interim owner is required at designation. Please remind <u>customers to inform them</u> about the relevant designations and details. Otherwise, the legacy plan cannot be implemented.

Change / Revocation of Contingent Owner and Interim Owner (if applicable)	• The policy owner may apply to: (i) revoke the contingent owner and interim owner (if applicable); or (ii) replace the contingent owner and interim owner (if applicable) by designating another person to be the contingent owner and / or interim owner (if applicable); or (iii) change the designated age of contingent owner (when Nomination Option (B) – Designated Age is elected); or (iv) change the elected Nomination Option; or (v) change the elected Succession Event Option • The designation of the contingent owner will be revoked automatically upon: (i) Change of insured (except when the contingent insured becomes the insured) (ii) Change of policy owner (except when interim owner becomes policy owner, if applicable) (iii) Change or revocation of contingent insured (if policy owner = insured) (iv) Before the occurrence of succession event, the contingent owner dies or if Nomination Option (B) – Designated Age is elected, the interim owner dies and the contingent owner has not reached the designated age at the time (v) For policy electing Succession Event Option (2) – Death / Incapacity: a. EPA is appointed and notified to the Company; or b. Designated executor of Flexi Care Option is subsequently appointed (vi) If Nomination Option (A) – Instant is selected, the application for replacement of original owner by the contingent owner has not been submitted and received by the Company within one year from the date of succession event

6.8.3 Potential outcomes if a Succession Event occurs

Potential outcomes if a succession event occurs before the maturity date	**<u>Nomination Option (A) – Instant</u>** • The contingent owner shall replace the original policy owner and become the new policy owner **<u>Nomination Option (B) – Designated Age</u>** **a) If the contingent owner has attained the designated age as at the date of succession event** The contingent owner shall directly replace the original policy owner and become the new policy owner with full policy rights **b) If the contingent owner has NOT attained the designated age as at the date of succession event** The interim owner shall become the new policy owner with granted policy rights and shall assume all obligations. The contingent owner shall become the policy owner with full policy rights when he/she has attained the designated age **c) If any of the IO Events* occurs before the contingent owner takes up the policy ownership** The contingent owner (age 18 or above) or legal representative of the contingent owner (under age 18) shall take up policy ownership and become the new policy owner, notwithstanding the designated age **d) If any of the CO Events^ occurs** The designation will be invalidated, and ownership of the policy will be vested in the original policy owner (or such person given the authority under law to hold this policy on behalf of the original policy owner) or their estate (as the case may be)

	*IO Events refer to: 1. interim owner dies 2. interim owner provides written confirmation declining to take up policy ownership or renouncing policy ownership 3. interim owner becomes incapable of taking up or holding policy ownership for any reason 4. the application for change of ownership to the interim owner has not been submitted by the interim owner within **one year** from the date of succession event 5. the Company at its sole and absolute discretion does not approve the replacement of original owner by the interim owner ^CO Events refer to: (i) contingent owner dies before he/she or his/her legal representative (as the case maybe) takes up policy ownership (ii) contingent owner or his/her legal representative (as the case may be) provides written confirmation to the Company declining to take up policy ownership or becomes incapable of taking up policy ownership for any reason (iii) the application for change of policy ownership to the contingent owner or his/her legal representative (as the case may be) has not been submitted and received by the Company within **one year** from: (i) the date of succession event; or (ii) the date on which the contingent owner attains the designated age; or (iii) the latest IO Event (iv) the Company at its sole and absolute discretion does not approve the taking up of policy ownership by the contingent owner or his/her legal representative (as the case maybe)

6.8.4 Conditions and impact on the policy for change of policy ownership

Conditions on Change of Policy Ownership	• The Company receives due proof of the succession event and IO Event (if applicable) within one year from (as the case may be): 1. the date of succession event 2. the date on which the contingent owner attains the designated age 3. the latest IO Event • If the succession event is the death of owner and the deceased policy owner = insured, the contingent owner must have an insurable interest in the contingent insured as at the effective date of the replacement of the deceased policy owner and the Company approves the replacement of the deceased insured by the contingent insured • If the succession event is the Loss of Capacity for Independent Living to the policy owner, written consent from the original policy owner for the change of ownership • If the succession event is a Mental Incapacitation Event or Loss of Capacity for Independent Living of the policy owner, additional supporting is required: 1. Confirmation of no committee or guardian has been appointed in respect of the original owner under the Mental Health Ordinance (Cap. 136) or under similar laws in another jurisdiction; or 2. Written notification with documentary proof that such relevant committee or guardian has been appointed and written consent from such relevant committee or guardian (as the case may be) for the replacement of original owner
If the contingent owner becomes the policy owner	• The contingent owner will become the new policy owner of the policy and shall assume all the obligations and be entitled to exercise all the rights of the original policy owner
If the interim owner becomes the policy owner under Nomination Option (B) – Designated Age	• The interim owner shall assume all the obligations under the policy and be entitled to exercise only the granted policy rights including: 1. The right to apply for and receive the withdrawal proceeds through the withdrawal option selected by the original policy owner, subject to the pre-defined maximum annual withdrawal amount (a percentage of the latest total cash value as at the time of withdrawal), subject to minimum withdrawal amount and after policy inception minimum notional amount

	requirement. Any indebtedness under the policy will be deducted from the withdrawal proceeds 2. The right to update the personal particulars of any person concerned and the means of communication of the policy, and to effect administrative changes solely in connection with the receiving of withdrawal proceeds 3. Any policy administration rights, as necessary for the purpose of complying with any applicable laws, regulations and regulatory requirements, and facilitating the continued administration of the policy by the Company • The interim owner will not be authorized to exercise any policy rights that would result in: 1. Change in any person / entity including the owner, insured, beneficiary, contingent owner, interim owner, contingent insured, designated executor 2. Exercise / change in any policy options and specified particulars of elected options including Heritage Protector Option, Flexi Continuation Option, Flexi Care Option, Death Benefit Settlement Option, deferral of Death Benefit Settlement 3. Change in the policy value (except those falling within the granted policy rights), including exercise of the Policy Value Lock-in Option, switching between the Prime Currency Account and the Global Currency Account, Currency Conversion Option, Flexi Segregation Option, application of policy loan and surrender of policy 4. Assignment of policy as collateral or security • In the event that the policy terminates (other than the death of the insured) while the policy owner is the interim owner, the contingent owner (age 18 or above) or the legal representative of the contingent owner (under age 18) shall be entitled to receive any proceeds payable. The interim owner shall inform the contingent owner or his legal representative (as the case maybe) of the termination of policy and his entitlement under the policy
Policy Date	Remain unchanged
Policy Term	Remain unchanged
Policy Year	Remain unchanged
Policy Value	Remain unchanged
Premium Calculation	Remain unchanged
Death Benefit	Remain unchanged

6.9 Details of Flexi Continuation Option

6.9.1 Flexi Continuation Option – Designating Contingent Insured (and Compassionate Benefit) at a Glance

Basic Application Requirement:

- Contingent insured must be of age under 138
- Must be an **individual-owned policy** or a corporate-owned policy **for corporate financial planning purposes**
- Must designate the portion of policy value which will be accumulated further after the Compassionate Benefit is paid to beneficiary

	Scenario 1 Policy Owner and Insured <u>are not</u> the same person	Scenario 2 Policy Owner and Insured <u>are</u> the same person
Upon designation of the Contingent Insured		
Application period	After policy inception and while the insured is still alive	
Require designating Contingent Owner at the same time?	Not required	Must designate a contingent insured (D) and contingent owner (E) **at the same time**, while (D) and (E) can be the same person
Insurable interest (upon designation and when the insured passed away)	Policy owner (A) must have insurable interest with contingent insured (D)	Contingent insured (D) must have insurable interest with contingent owner (E)
Impact to beneficiary	• Beneficiary (C) will be automatically revoked • Policy owner (A) will automatically become the beneficiary (except for if Nomination Option B – Designated Age* is chosen) * Under this situation, the contingent owner will become the beneficiary. For details, please refer to section 6.8.2.	• Beneficiary (C) will be automatically revoked • Contingent owner (E) will automatically become the beneficiary
When the Insured passes away		
Impact to the Policy	• Contingent insured (D) will replace the deceased insured and become new insured	• Contingent insured (D) will replace the deceased insured and become new insured • Contingent owner (E) will replace the deceased owner and become new owner

Reminder:

The successful replacement of the deceased insured with the contingent insured have other impacts to the policy. For details, please refer to section 6.9.4.

6.9.2 Application Requirements of Designation of Contingent Insured

Applicable policies	• Applicable to individual-owned and corporate-owned policies for Corporate Financial Planning purposes only
Application Period	• After policy inception • The existing insured and the contingent insured must be alive **For customers' convenience, they can submit their application at the time of policy application. However, the application will only be processed after policy inception**
Max No. of Change	• No limitation, but only one individual person can be designated as the contingent insured at any one time
Contingent Insured's Age Requirements	• The contingent insured must below the age of 138
Underwriting requirement on Contingent Insured	• No requirement on underwriting
MCV Verification	• Not required
Relationship requirement	• For individual-owned policies ➢ Where the policy owner ≠ insured, the contingent insured must be: (i) Policy owner; or (ii) Policy owner's spouse; or (iii) Policy owner's child (under age 18); or (iv) Policy owner's grandchild/great-grandchild (under age 18); or (v) Other relationship as accepted by the company Note: Insurable interest is not required between contingent insured and contingent owner (if any) ➢ If the policy owner = insured, policy owner must designate contingent insured and contingent owner at the same time, the contingent insured must be (i) Contingent owner; or (ii) Contingent owner's spouse; or (iii) Contingent owner's child (under age 18) (iv) Contingent owner's grandchild/great-grandchild (under age 18); or (v) Other relationship as accepted by the Company Note: Insurable interest is required between contingent insured and contingent owner • For corporate-owned policies, the contingent insured must be: (i) an employee / executive of the owner; or (ii) Other relationship as accepted by the company
Impacts on Beneficiaries After Designation of Contingent Insured	• All beneficiaries (if any) of the policy designated previously will be revoked • If the policy owner ≠ insured, policy owner will become the only beneficiary, and no other person can be named as the beneficiary **except** when contingent owner and interim owner are designated under Nomination Option (B) – Designated Age of Heritage Protector Option, please refer to "6.8.2 Application Requirements of designation of the contingent owner / Interim owner" for details • If the policy owner = insured, contingent owner will become the only beneficiary, and no other person can be named as the beneficiary
Other Requirements	• Allocation of Compassionate Benefit should be determined upon the designation of contingent insured • The Notional Amount of this policy after payment of the Compassionate Benefit must not be less than the after policy inception minimum notional amount requirement (the Company may determine the minimum amount from time to time) • Written consent is required from the following parties: (i) Policy owner (ii) Assignee (if any) (iii) Irrevocable beneficiary (if any) **No signature from the contingent insured is required at designation. Please remind customers to inform them about the relevant designations and details. Otherwise, the legacy plan cannot be implemented.**

Change / Revocation of Contingent Insured	• The policy owner may apply to revoke the contingent insured or replace the contingent insured by designating another person to be the contingent insured in accordance with the application procedures • The designation of the contingent insured will revoke automatically upon: ➢ Change of insured ➢ Change of policy owner (except when contingent owner/ interim owner becomes the policy owner) ➢ Change or revocation of contingent owner (if policy owner = insured) ➢ The contingent insured dies

6.9.3 Conditions on the replacement of insured by the contingent insured

Conditions on the replacement of insured by the contingent insured	• When the insured dies before the maturity date while the basic plan is in effect, except for policy of which ownership is under the interim owner, the policy owner and beneficiary may apply to receive the compassionate benefit and continue with the policy with the contingent insured replacing the deceased insured and becoming the insured. • For policy of which the ownership is held by the interim owner as at the date of death of the insured, the application is deemed to have been made upon our receipt of notice of the insured's death. • The Company receives due proof of the death of the insured within 60 days of such death • As at the effective date of the replacement of the Insured: 1. Contingent insured is below age 138 2. <u>If the policy owner ≠ deceased insured:</u> The policy owner has an insurable interest in the contingent insured, except for policy electing Nomination Option B – Designated Age of Heritage Protector Option and policy ownership is under the interim owner. In this case, the contingent owner has an insurable interest in the contingent insured <u>If the policy owner = deceased Insured:</u> (i) the contingent owner has an insurable interest in the contingent insured; (ii) the Company approves the contingent owner (or his legal representative) or interim owner (as the case may be) to replace the deceased original policy owner to become the policy's owner

6.9.4 The impact on the policy after the contingent insured successfully replaced the deceased insured

Policy Term	Updated to the latest insured's age 138
Policy Date	Not affected
Policy Anniversary	Not affected
Policy Year	Not affected
Compassionate Benefit	Payable to the beneficiary (who is also the policy owner or the contingent owner, depending on the situation). The amount of the Compassionate Benefit is a certain percentage of an amount where such amount is equal to the Death Benefit less any Indebtedness and outstanding premium (if any)
Policy Value	As a result of the payment of the Compassionate Benefit (if applicable), the notional amount, guaranteed cash value, reversionary bonus, terminal bonus, value of the Prime Currency Account and value of the Global Currency Account will be reduced accordingly
Premium Calculation	Premium is determined as standard class
Death Benefit	The calculation of death benefits will not be affected, while the extra 30% of the Total Standard Premiums Paid (only applicable to superior death benefit option (WEB05/WEB10) policies) that may be paid as part of the death benefit is still determined based on the age of the initial insured
Incontestability	Recount from the effective date of the replacement of insured

Suicide Exclusion	Recount from the effective date of the replacement of insured
"Misstatement of Age or Sex"	Applicable to both the initial insured and the latest insured
Supplements	• All supplement(s) (if any) will be terminated on the effective date of the replacement of insured • No supplement(s) can be attached thereafter

"Misstatement of Age or Sex"	Applicable to both the initial insured and the latest insured
Supplements	• All supplement(s) (if any) will be terminated on the effective date of the change of insured • No supplement(s) can be attached thereafter

6.11 Details of Flexi Care Option

6.11.1 Application requirements of appointment of designated executor

Applicable policies	• Applicable to individual-owned policies
Application Period	• After policy inception • The policy owner and designated executor must of full mental capacity
Max. No of Application	Unlimited, but only one individual person can be appointed as the designated executor at any one time
Appointment of Designated Executor	The policy owner may appoint a designated executor to act on his behalf to apply for and receive the proceeds of a one-time withdrawal, which is pre-specified by the policy owner and expressed as a certain percentage of total cash value as at the time of withdrawal ("Designated Withdrawal"), on the occurrence of a Mental Incapacitation Event* or a Loss of Capacity for Independent Living* (as the case may be) to the owner while this policy is in effect *Please refer to "6.8.2 Application Requirements of designation of the contingent owner / interim owner" for the definition of Mental Incapacitation Event and Loss of Capacity for Independent Living.
Relationship between Designated Executor and Policy Owner	Policy owner's spouse, parents, child, grandparents, siblings, fiancé/fiancée, grandchildren, stepchildren, parents-in-law and other relationship as accepted by the Company
Age Requirements of Designated Executor	Designated executor must be age 18 or above
Other Requirements	• Written consent is required from: (i) Policy owner (ii) Assignee (if any) (iii) Irrevocable beneficiary (if any) • The policy owner does not have an existing EPA covering the policy
MCV Verification	Not required

For customers' convenience, they can <u>submit their application at the time of policy application</u>. However, the application will <u>only be processed after policy inception</u>

<u>No signature</u> from the designated executor is required at designation. Please remind <u>customers to inform them</u> about the relevant designations and details. Otherwise, the legacy plan cannot be implemented.

Change / Revocation of Designated Executor	• Provided that the policy owner must be of full mental capacity at the time, the policy owner may apply to: (i) Change or terminate the appointment of the designated executor (ii) Change the amount of Designated Withdrawal • The appointment of the designated executor will be revoked automatically upon: 1) Our receipt of notification of an EPA in respect of the policy owner being appointed covering the policy 2) The policy owner dies 3) Change of policy owner 4) Designated executor dies or becomes mentally incapacitated 5) The Succession Event Option (2) – Death / Incapacity under Heritage Protector Option is elected

6.11.2 Application of Designated Withdrawal and the impact on the policy

Application Requirements of Designated Withdrawal	• Designated executor must provide to the Company: 1) Satisfactory proof of the occurrence of a Mental Incapacitation Event or Loss of Capacity for Independent Living (as the case may be) to the policy owner; 2) In the event of an occurrence of the Loss of Capacity for Independent Living to the policy owner, the application for Designated Withdrawal must be further accompanied with the written consent from the policy owner for the designated executor to apply for and receive proceeds of Designated Withdrawal on behalf of the policy owner; 3) One of the below: o Confirmation that no committee or guardian has been appointed under the Mental Health Ordinance (Cap. 136) or under similar laws in another jurisdiction; or o Written notification with documentary proof that such relevant committee or guardian has been appointed and written consent from such relevant committee or guardian for the Designated executor to apply for and to receive proceeds of Designated Withdrawal on behalf of the policy owner, if any committee or guardian has been appointed (as the case may be).
Designated Withdrawal	**<u>If the Designated Withdrawal = 100% of Total Cash Value:</u>** • The withdrawal proceeds will be of an amount equivalent to surrender value (i.e. any indebtedness will be first deducted) • The policy will automatically terminate on the approval date of the Designated Withdrawal **<u>If the Designated Withdrawal < 100% of Total Cash Value:</u>** • The Designated Withdrawal will be executed by first withdrawing from (i) the value of the Prime Currency Account (if any); (ii) the value of the Global Currency Account (if any); and (iii) cash value of the reversionary bonus and its corresponding terminal bonus, the remaining balance will be withdrawn by way of reduction of notional amount • The application of Designated Withdrawal is subject to requirements on minimum withdrawal amount and the after policy inception minimum notional amount requirement as specified by the Company from time to time, hence, <u>the actual amount of Designated Withdrawal may be less than the pre-specified Designated Withdrawal</u> • Any indebtedness under this policy will be deducted from the proceeds of Designated Withdrawal

<table>
<tr><td>Rights and Obligations of Designated Executor</td><td>• Designated Executor must use the proceeds of Designated Withdrawal solely for the maintenance, benefit and care of the policy owner
• Designated Executor may apply for and receive proceeds of Designated Withdrawal, and to effect administrative changes solely in connection with the receiving of proceeds of Designated Withdrawal and have no other policy rights</td></tr>
</table>

6.12 Details of Death Benefit Settlement Option

<table>
<tr><td>Application Requirements</td><td colspan="2"><u>Policy owner</u>
May elect the preferred options for payment of the death proceeds for each beneficiary during the insured's lifetime, except for Compassionate Benefit or when the policy is assigned as collateral:
• Death benefit settlement option (4 choices available)
• Defer the commencement of settlement of death proceeds

<u>Beneficiary(ies)</u>
Not allowed to elect/alter the option</td></tr>
<tr><td>Deferral of the first death benefit payment</td><td colspan="2">• Allowed
• The start age of death benefit settlement of each beneficiary shall not exceed the age of the relevant beneficiary at the date of designation by more than 30 years</td></tr>
<tr><td rowspan="10">Death Benefit Settlement Option</td><td colspan="2">Option 1: Lump Sum Payment</td></tr>
<tr><td colspan="2">(i) Default option
(ii) Follow existing rules</td></tr>
<tr><td colspan="2">Option 2: Payment by Instalments</td></tr>
<tr><td>Instalment Period</td><td>Policy owner is free to choose the instalment period (must be agreed by the Company)</td></tr>
<tr><td>Mode of settlement</td><td>Annually / Monthly</td></tr>
<tr><td colspan="2">Option 3: Hybrid Payment – A Lump Sum followed by Instalments</td></tr>
<tr><td colspan="2">a) Designate a portion of the death benefit to be paid in a lump sum first
b) Remaining balance to be paid by instalments (freely choose the payment period, payable annually / monthly)</td></tr>
<tr><td colspan="2">Option 4: Hybrid Payment – Instalments followed by a Lump Sum</td></tr>
<tr><td colspan="2">a) Designate a portion of the death benefit to be paid by instalments (freely choose the instalment period, payable annually / monthly)
b) Remaining balance to be paid in a lump sum after the last regular instalment is paid</td></tr>
<tr><td colspan="2"></td></tr>
<tr><td>Balance of the payment</td><td colspan="2">• If choosing instalment, hybrid payment or deferral of the first death benefit payment, any unpaid death benefit will be accrued at a non-guaranteed interest rate* until all death benefit is paid.
• All unpaid death benefit and accrued interest will be paid in lump sum with the final payment
* The interest rate is non-guaranteed and may vary by policy currencies (the current interest rate is 0.5% p.a. for GBP and EUR and 2% p.a. for other currencies)</td></tr>
<tr><td>Arrangement Upon Death of the Beneficiary(ies)</td><td colspan="2">Upon the death of the relevant beneficiary(ies) or the policy owner, the Company will pay the estate of the deceased beneficiary(ies) or the estate of the policy owner the remaining balance of his share of death proceeds in a lump sum with interest paid up to the date of receipt of the death proof of the deceased beneficiary(ies) or the policy owner. Other surviving beneficiary(ies) (if any) would not be affected.</td></tr>
</table>

6.13 Details of Extended Grace Period Benefit

Applicable policies	• Applicable to individual-owned policies • In respect of a Converted Policy or Segregated Policy, the Extended Grace Period Benefit will only be available if such benefit has not been applied for and approved by us under any Preceding Policy
Application Requirements	After the policy has been effective for 1 or more years, during the premium payment period of the basic plan, the policy owner may apply for an extension of the Grace Period up to 365 days if one of the specified events listed below occur: (i) The policy owner gets married; (ii) The policy owner or his spouse gives birth; (iii) The policy owner is made redundant or laid off (iv) The policy owner gets divorced; (v) The policy owner changes the Principal Location of Residence
Max. No of Applications	Maximum of 1 application for each policy
During the Grace Period	(i) Existing policy will continue to be in effect; (ii) The guaranteed cash value and the face value of the reversionary bonus, the value of the Prime Currency Account and the value of the Global Currency Account (if any) will remain unchanged; (iii) The premiums that fall due under the existing policy will continue to remain outstanding without interest but will be suspended and shall become due and payable at the end of the Grace Period (as extended under this benefit) or upon termination of this benefit, whichever is earlier; (iv) The policy owner is not allowed to exercise any policy rights that would result in a change in policy values, including without limitation withdrawals, reduction in the Notional Amount or any Supplement Amount (notwithstanding any other provisions to the otherwise); and (v) The policy owner is not allowed to apply for any cash loan.
Cessation	(i) There is any change of owner or any policy assignment (ii) There is any claim for waiver of premium benefit (where applicable) or applicant's waiver of premium benefit (where applicable) or waiver of premium on death of owner benefit under this policy
Required Claim Forms and Documents	Apply and submit the following supporting documents within 30 days (except (vi)) from the date receiving the relevant evidence issued by the relevant authority of a lawful jurisdiction (if applicable) / employer (if applicable): (i) Policy owner's ID (ii) In the case of redundancy or lay-off: (a) redundancy or layoff letter from previous employer; and (b) employed for more than 12 months; and (c) proof of full-time employment (iii) Policy owner's marriage certificate for the case of marriage (iv) Policy owner's certificate evidencing the dissolution or termination of the marriage for the case of divorce (v) A birth certificate of the child of the policy owner for the case of childbirth (vi) Policy owner's satisfactory proof of address issued within last 3 months from the application date for the case of changing Principal Location of Residence
Other Points to Note	• Premium must be paid before the end of the Grace Period. If any premium is unpaid at the end of the Grace Period, the premium shall be in default and the Automatic Premium Loan will apply until policy is terminated • The Extended Grace Period Benefit is not applicable in the following circumstances: (a) in the case of redundancy or lay-off, if the policy owner does not hold a valid Hong Kong identity card or is within any of the following groups: i. Self-employed persons; ii. domestic helpers;

	iii. employees who work for a company or firm in which any of his/her relatives (including but not limited to spouse, parents, brothers, sisters, children, grandparents, or grandchildren), alone or in aggregate, has 50% or more ownership in the company or firm; iv. employees whose employment is terminated by reason of voluntary redundancy or disciplinary action; or v. employees of a company or firm which is wholly or partly owned by the policy owner himself or herself; or (b) if policy assignment (where it is permissible under the existing policy) is being or has been processed.

Change of Policy Currency	Applicable to Currency Conversion Option. For details, please refer to "6.4 Details of Currency Conversion Option"
IIE / Reduced Paid Up Insurance / Extended Term Insurance	Not Applicable
Automatic Premium Loan (APL)	(i) Available, if there is enough loan value for paying any premium overdue (ii) The total of automatic premium loan and policy loan amount shall not exceed 100% of the sum of Guaranteed Cash Value, cash value of Reversionary Bonus (if any) and value of the Prime Currency Account less any indebtedness (iii) Interest will be charged on APL and AXA shall have the discretion to determine or change the interest rate (current interest rate is 8.00% p.a.) from time to time (iv) No loan request shall be allowed during the Grace Period as extended under the "Extended Grace Period Benefit" Provision
Policy Loan	(i) Policy loan amount shall not exceed 90% of the sum of Guaranteed Cash Value, cash value of Reversionary Bonus (if any) and value of the Prime Currency Account less any indebtedness (ii) Interest will be charged on policy loans and AXA shall have the discretion to determine or change the interest rate (current interest rate is 8.00% p.a.) from time to time

7.4 Claims

Claims procedures and required documents follow current general procedures.

7.5 Financial Needs Analysis

WealthAhead II Savings Insurance is an insurance product in which Financial Needs Analysis must be filled to provide appropriate protection for customers with the following financial needs:

Q1a.	What are your objectives for seeking to purchase an insurance product? a. Financial protection against adversities (e.g. death, accident, disability etc) b. Preparation for health care needs (e.g. critical illness, hospitalization etc) c. Providing regular income in the future (e.g. retirement income etc) d. Saving up for the future (e.g. child education, retirement etc) e. Investment	(Compulsory answer) Not applicable Not applicable (Optional answer) (Compulsory answer)
Q1b.	To meet your "Investment" objective indicated above, how would you prefer to manage different investment options/investment choices, if available, under the insurance product? a. I want to make my own decisions (without any professional advice to be provided) to choose and manage different investment options / investment choices b. I want to make my own decisions (with professional advice to be provided) to choose and manage different investment options / investment choices c. I do not want to choose or manage different investment options / investment choices, if available, under an insurance product.	Not applicable Not applicable (Compulsory answer)
Q1c.	What type(s) of health-related insurance products are you looking for to meet your insurance needs? a. Medical - reimbursement (inpatient / outpatient protection) b. Medical - hospital income/lump sum cash benefit c. Critical illness with saving elements / cash value d. Critical illness without saving elements / cash value e. Long-term care	Not applicable
Q2.	What is your target benefit / protection period / expected timeframe for meeting the target amount for insurance policy?	Whole of life (up to age 138)

7.6 Key Product Risks

According to the regulations of GL16 and GL28, the following key product risks have been included in the product brochure:

Risk Type	Explanation
Currency and exchange rate	Currency risk arises from premium payment, benefit payment, Currency Conversion Option, switching between Prime Currency Account and Global Currency Account
Changes due to exercising the Currency Conversion Option	Related to the Converted Policy could have different terms and conditions compared to the existing plan after exercising the Currency Conversion Option; the notional amount, premiums payable (if any) and the policy value projection of the Converted Policy could be higher or lower than those of the existing policy; supplements attached to the basic plan could be terminated or their sum insureds could be reduced; and other changes.
Non-payment of premium	Any premiums remaining outstanding may lead to automatic policy loan and termination of your policy
Early Surrender Risk	Early surrender of the policy may result in a significant loss where you may get back considerably less than the premiums paid
Inflation Risk	Inflation may cause insufficient protection in the future
Termination	The termination of the earliest occurrence of events
Exclusion	Exclusions applicable to this product

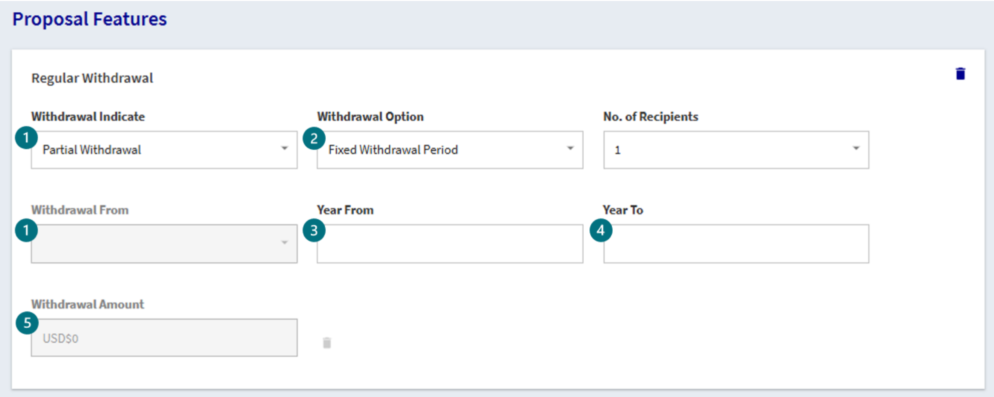
7.7 Product Type

	Yes	No
U.S. Foreign Account Tax Compliance Act ("FATCA") related products	✓	
Automatic Exchange of Financial Account Information related products	✓	

8. Sales Support

8.1 Proposal System Support (New Business)

8.1.1 Withdrawal Options



To help financial consultants to better grasp WealthAhead II's enhanced withdrawal functions, we have specially prepared a short tutorial video (around 4 mins). The video can be browsed by scanning the QR code or logging into eLibrary.

Video path: e-Library > Life Protection and Savings Products (New Business) > WealthAhead II Savings Insurance - Supreme

Withdrawal functions in iBuy have been enhanced (only applicable to WealthAhead II):

1) Customized withdrawals for up to 3 recipients

2) Withdrawals will be exercised at the end of the policy year!

Withdrawal Indicate (1)	Withdrawal Sequence (withdrawal from the relevant account or value in the following order for each withdrawal under each indicate)	Withdrawal Option (2)	Earliest Start Year (3)	End Year (4)	Withdrawal Amount (5)
Periodic Withdrawal	1) Prime Currency Account# (if applicable) 2) Global Currency Account% (if applicable) 3) Cash value of reversionary bonus and cash value of its corresponding terminal bonus 4) Guaranteed cash value and cash value of its corresponding terminal bonus* *Notional amount will be reduced corresponding to the withdrawal under item (4) above, causing partial/full surrender	Fixed Withdrawal Amount	5P: Year 5 10P: Year 10	System will automatically calculate the maximum year	Manually input
		Multiple Withdrawal		Manually input	Manually input
Partial Withdrawal (Will not trigger partial surrender)	1) Prime Currency Account# (if applicable) 2) Global Currency Account% (if applicable) 3) Cash value of reversionary bonus and cash value of its corresponding terminal bonus	Fixed Withdrawal Year	Year 3	Manually input	System will automatically calculate the highest amount
		Fixed Withdrawal Amount		System will automatically calculate the maximum year	Manually input
		Multiple Withdrawal		Manually input	Manually input
Withdrawal from Currency Account#	1) Withdraw from Prime Currency Account# or Global Currency Account%	Fixed Withdrawal Amount	Year 5 (subject to policy value lock-in/switching year)	System will automatically calculate the maximum year	Manually input
		Multiple Withdrawal		Manually input	Manually input

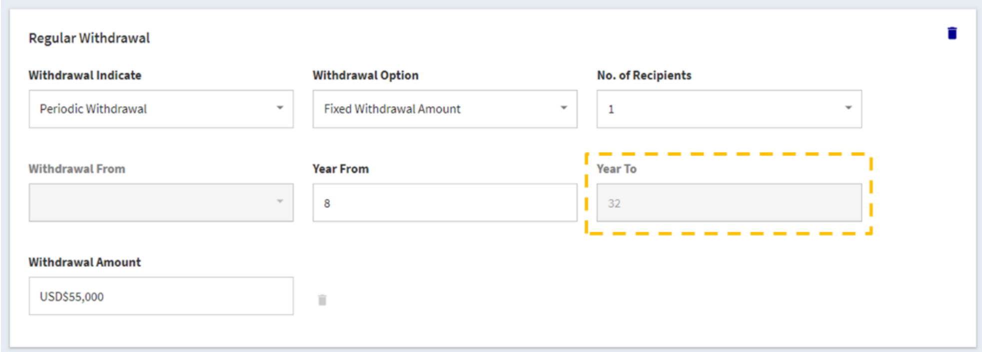
Only applicable to policies that have exercised Policy Value Lock-in Option

% Only applicable after the policy has switched the lock-in amount from Prime Currency Account to Global Currency Account

Illustrative Example of Periodic Withdrawal

Assume WealthAhead II - Supreme, 5P with Total Premiums Paid: USD500,000, withdraw USD55,000 annually starting from year 8:

If Fixed Withdrawal Amount is chosen



- System will automatically calculate the highest withdrawal year (i.e. Year 32) that the policy values can support and assume that the last withdrawal will cause the notional amount to fall below the minimum notional amount requirement, resulting in **full surrender**
- Relevant full surrender wordings will be displayed in the proposal:

End of Policy Year	Total Premiums Paid	Withdrawal			Notional Amount After Withdrawal	DEATH BENEFIT			
		Guaranteed	Non-Guaranteed	Total		Guaranteed	Non-Guaranteed		Total
						Death Benefit	Face Value of Reversionary Bonus	Face Value of Terminal Bonus	
		(1)	(2)	(1)+(2)		(3)	(4)	(5)	(3)+(4)+(5)
30	500,000	14,504	40,496	55,000	21,270	27,650	-	57,428	85,078
31	500,000	13,997	41,003	55,000	7,588	9,864	-	22,005	31,869
32	-	7,770	24,111	31,881	-	-	-	-	-
Total Withdrawal Amount For All Years		326,723	1,025,158	1,351,881					

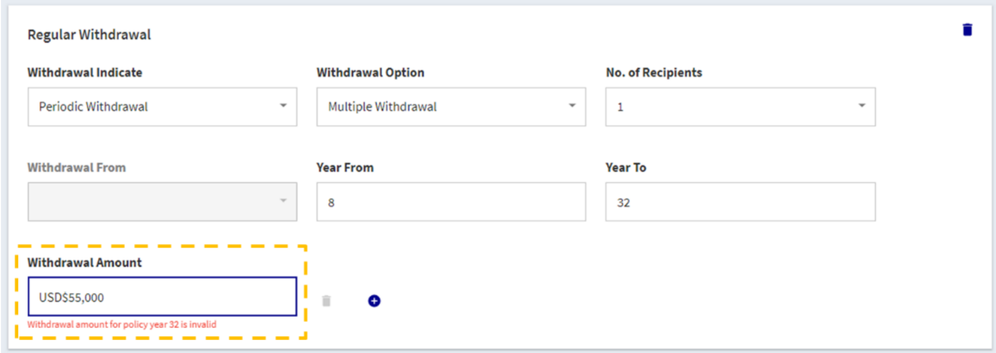
For the explanation of the above illustration, please refer to the Explanation Notes for the Supplementary Illustration Summary.

Based on the withdrawal schedule shown above, the Notional Amount after withdrawal will fall below the minimum requirement in year 32. Therefore, policy will terminate and the policy values will be paid out entirely.

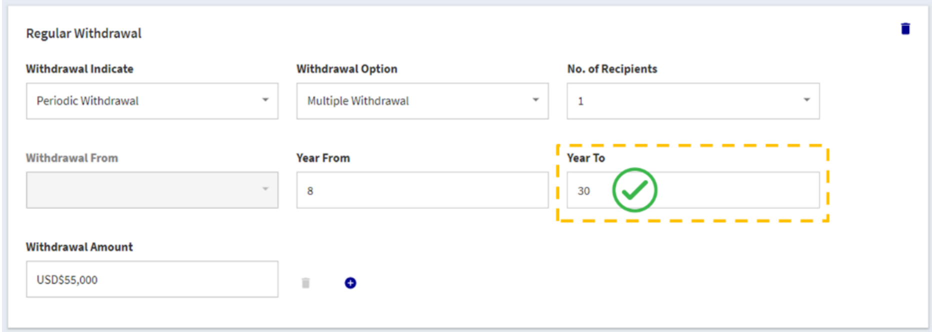
Based on the withdrawal schedule shown above, the Notional Amount after withdrawal will fall below the minimum requirement in year 32. Therefore, policy will terminate and the policy values will be paid out entirely.

> **Reminder:**
> If Fixed Withdrawal Amount is chosen, even if the policy values after withdrawal are not sufficient to support the full withdrawal amount in the relevant year, the policy will still withdraw the remaining amount by way of full surrender and the policy will terminate.

If Multiple Withdrawal is chosen



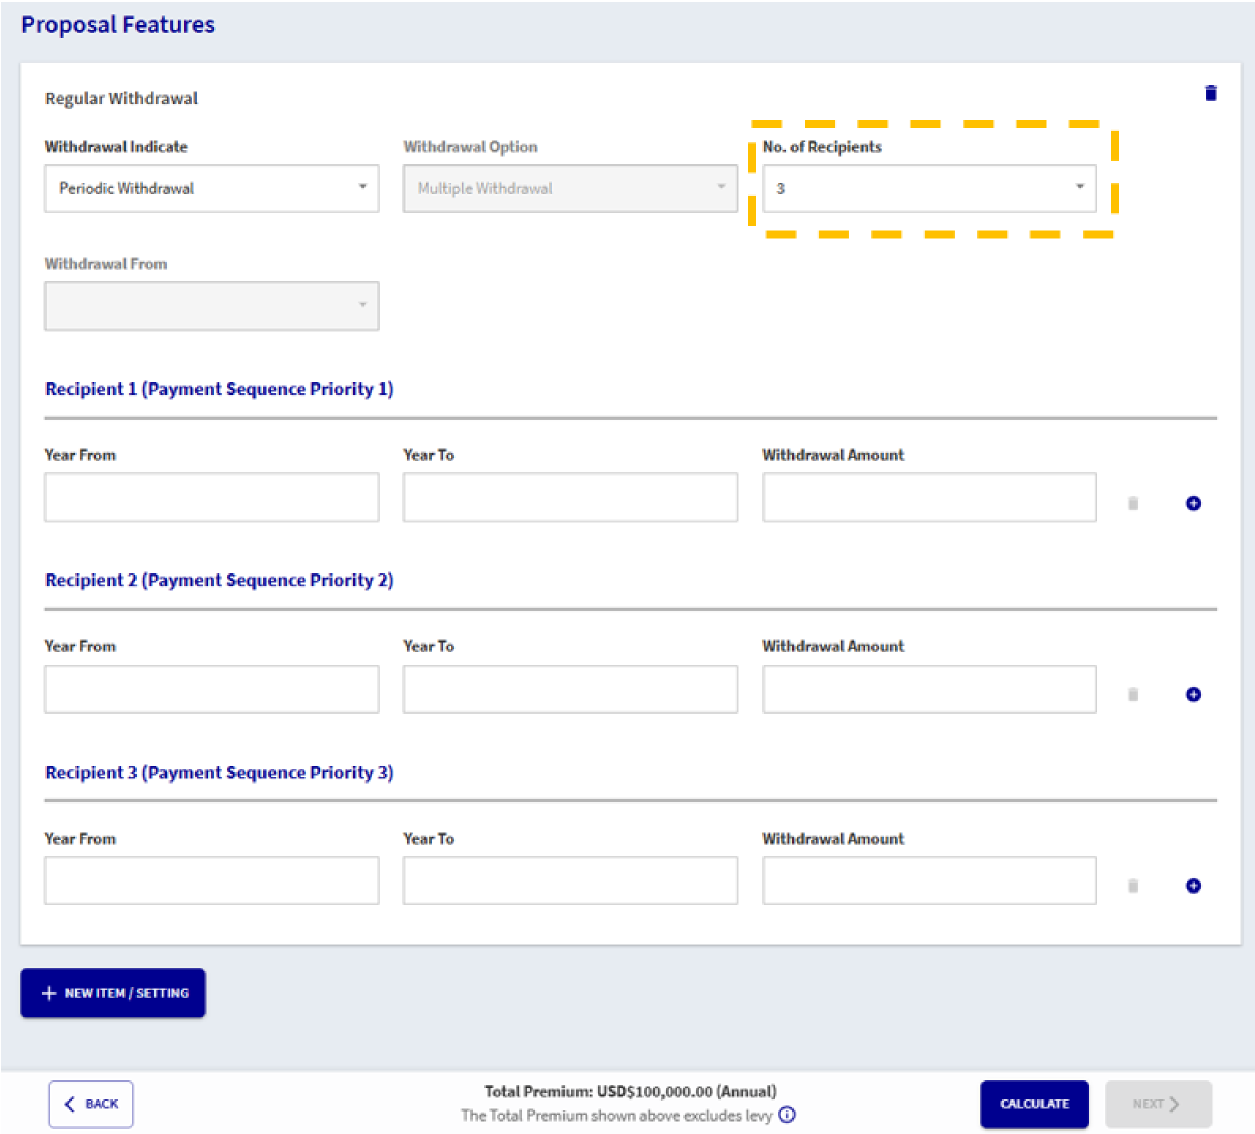
- If the end year is inputted as Year 32, as the policy values in Year 32 are unable to support the withdrawal amount, the system will show a warning message which states that the withdrawal in Year 32 is invalid
- If the end year is inputted as Year 31 and even if the policy values are able to support the withdrawal amount, the relevant withdrawal may cause the notional amount to fall below the minimum amount requirement, resulting in full surrender. If this situation occurs, the relevant full surrender wordings will be displayed in the proposal (please refer to the Fixed Withdrawal Amount example for the relevant wordings)
- To ensure that the policy does not terminate, withdrawal end year can be set to the year before the minimum notional amount falls below the minimum requirement (i.e. withdrawal end year will be Year 30). In this case, the proposal will not show the relevant full surrender wordings



Notes on proposal details:

- Withdrawal year must not be earlier than the earliest start year of the respective withdrawal indicates
- The withdrawal year for the same recipient cannot overlap
- The effective year of the Flexi Continuation Option cannot overlap with the withdrawal year
- If withdrawal and the Policy Value Lock-in Option are exercised in the same policy year, the system will assume that after the Policy Value Lock-in Option has been exercised at the end of the relevant policy year, immediately followed by withdrawal
- Please note that the system only supports annual withdrawals currently. The proposal shows the details of annual withdrawals for customers' reference.

Set up for more than 1 recipient (Wealth Master Service – Adding recipients)



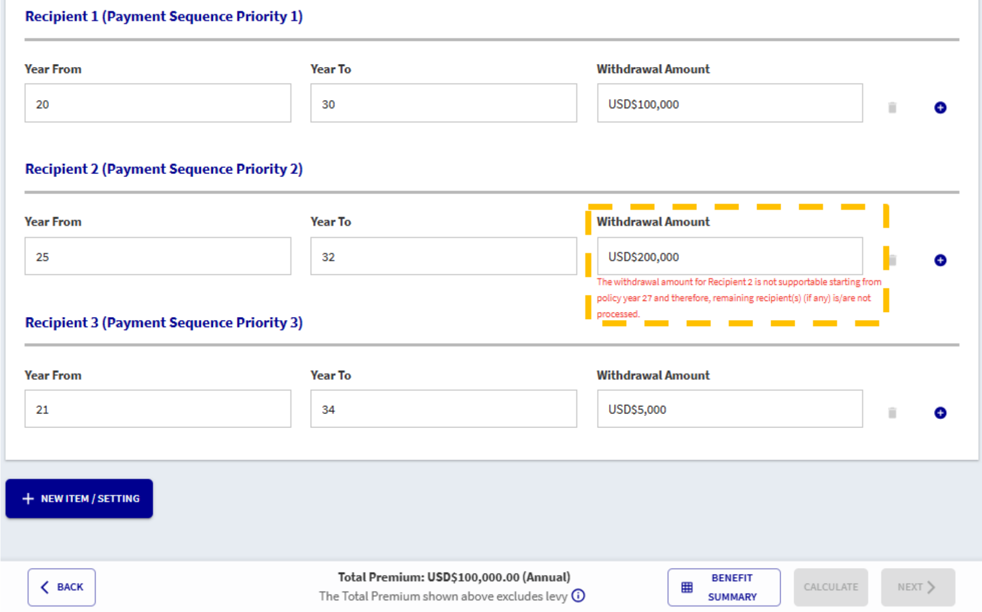
- If a customer needs to choose more than 1 recipient, they can elect for up to 3 recipients under “No. of Recipients”
- System will display the corresponding recipient fields according to the no. of recipient selected
- Financial consultants are required to fill in the details according to the payment sequence priority and the **payments will be calculated based on the inputted sequence**
- The withdrawal frequency for each policy is set to annual by default. Additionally, the withdrawal indicate for all recipients must be the same and the withdrawal option is set to **Multiple Withdrawal** by default
- The start year, withdrawal period and withdrawal amount can all be different for each recipient
- After inputting all recipient fields, press “Calculate” to confirm whether the withdrawal instruction can be successfully passed

Reminder: For the convenience of financial consultants, the iBuy system will calculate whether the policy values are sufficient to support all withdrawals throughout the entire withdrawal period for each recipient **one by one according to the payment sequence priority**. If the instruction for a certain recipient exceeds the policy's supportable range, the system will show a warning message. Financial consultants are required to immediately amend the relevant details according to the warning message in order to continue processing the withdrawal instruction for the next recipient (if any). Please note that Wealth Master Service's administrative process is different compared to iBuy's calculation method. In actual practice, on each withdrawal date, system will calculate based on the payment sequence priority to determine whether the policy values are sufficient to support the withdrawal amount for the respective recipient.

If the policy values are insufficient to support the elected withdrawal amount or period, the system will show the relevant error message under the respective recipient's field:

Withdrawal instruction is affected by the <u>instruction of an individual recipient</u>

Warning message: The withdrawal amount for Recipient [1/2/3] is not supportable starting from policy year [x] and therefore, remaining recipient(s) (if any) is/are not processed.



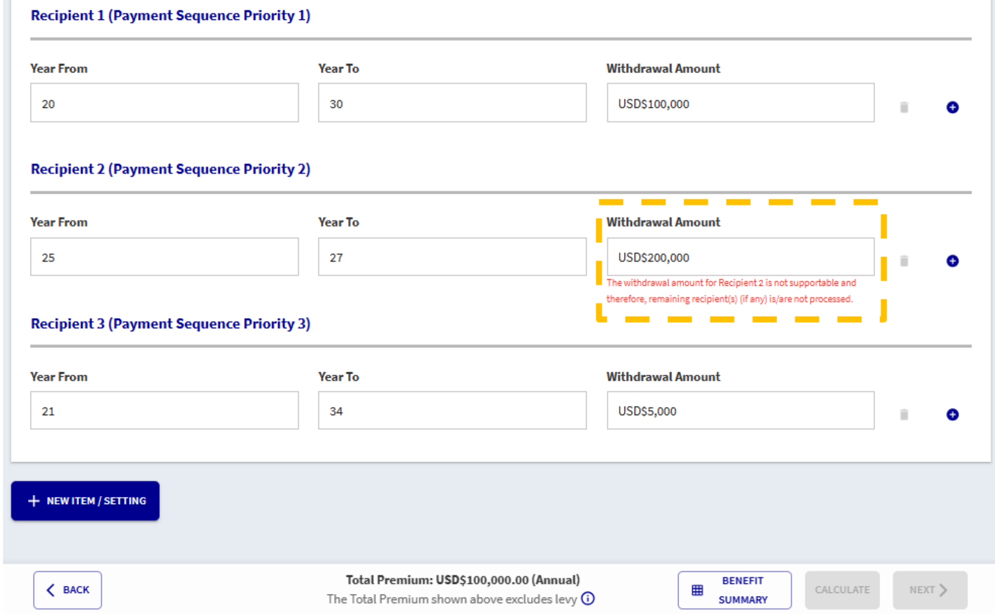
The system will first calculate Recipient 1's instruction. If it's successful, the next recipient's instruction will be prcoessed. Assuming after system calculation that the remaining policy value is not sufficient to support all withdrawals throughout the entire withdrawal period for Recipient 2, the financial consultant will need to change Recipient 2's withdrawal period/amount to be within the policy's acceptable range in order for Recipient 3's instruction to be processed.

Solution:

a. **Shorten** the respective recipient's **withdrawal period** to reach the specified withdrawal amount; or
b. **Reduce** the respective recipient's **withdrawal amount** to allow withdrawals within the specified period

Withdrawal instruction affected the <u>instruction of the previous recipient</u>

Warning message: The withdrawal amount for Recipient [1/2/3] is not supportable and therefore, remaining recipient(s) (if any) is/are not processed.



The system will first calculate Recipient 1's instruction. If it's successful, the next recipient's instruction will be processed. As Recipient 2's withdrawal period is **earlier/overlaps with the previous recipient**, the system will consider whether Recipient 2's withdrawal will cause Recipient 1's withdrawal to become unsupportable. If this situaiton occurs, the error message will be shown under Recipient 2's field.

Solution:

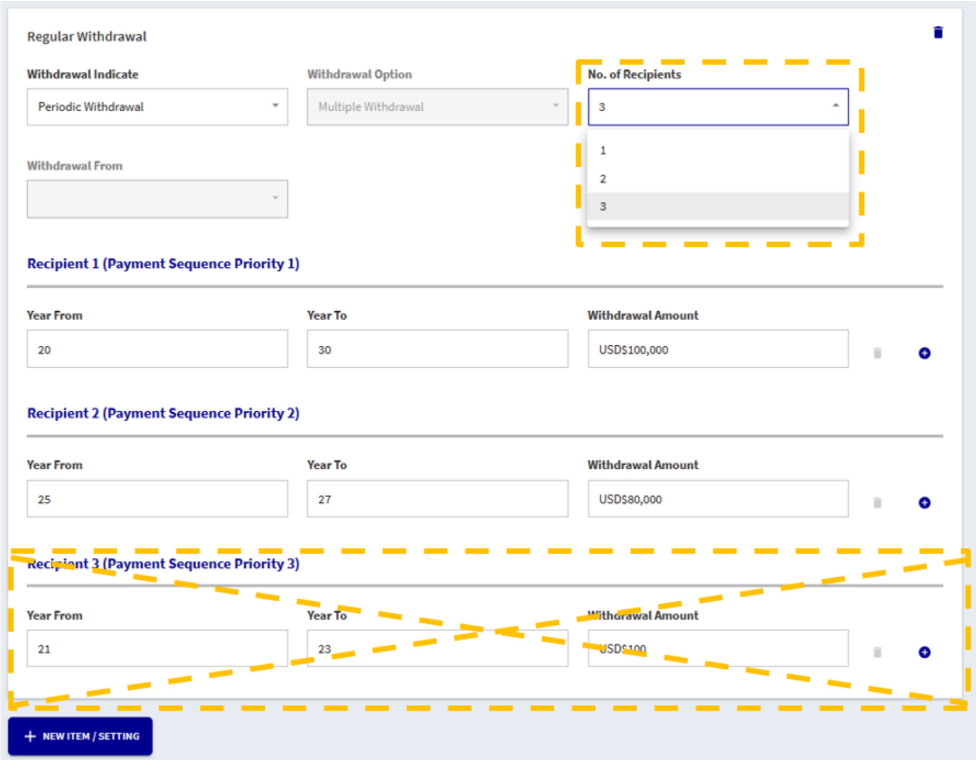
a. Financial consultant must change the **respective recipient or the previous recipient's withdrawal amount/period** to ensure the respective recipient's instruction is accepted

Changing the number of recipients (Wealth Master Service – Reducing recipients)

<table>
<tr><th>From 3 recipients to 2 recipients</th><th>From 3 recipients back to 1 recipient</th></tr>
<tr><td>

If changing to 2 recipients after selecting 3 recipients,

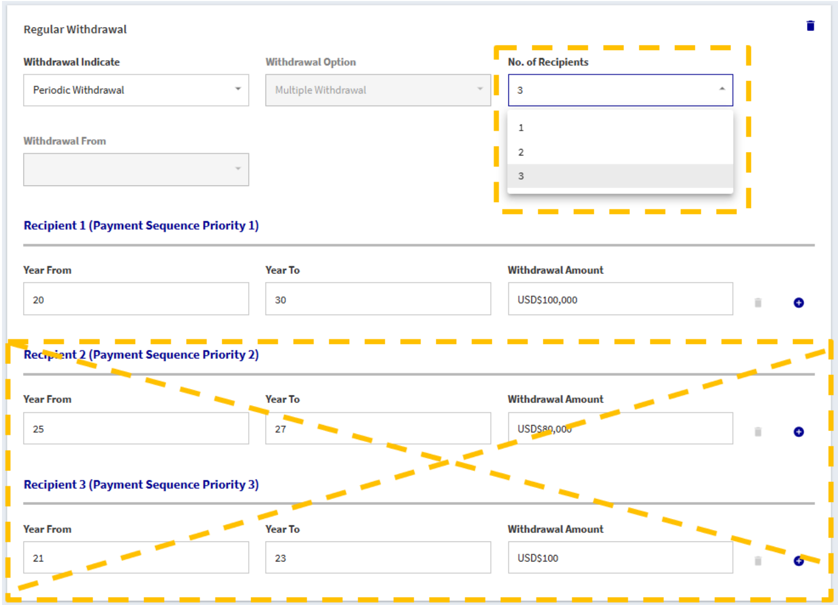
- Financial consultants are required to choose “2” under “No. of Recipients”
- System will delete the last withdrawal instruction (i.e. Recipient 3) based on the payment sequence priority
- The entered instruction for Recipient 1 and Recipient 2 will be kept
- Withdrawal Option cannot be changed. However, Withdrawal Indicate can be changed

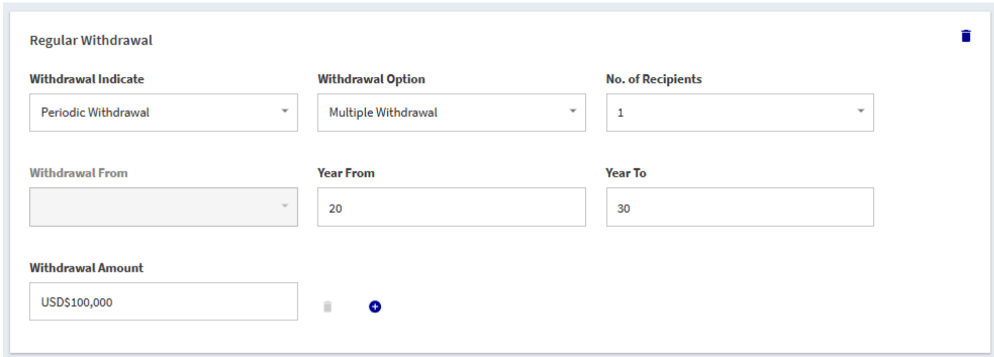


</td><td>

If changing to 1 recipient after selecting 3 recipients,

- Financial consultants are required to choose “1” under “No. of Recipients”
- System will delete the last withdrawal instructions (i.e. Recipient 2 and 3) based on the payment sequence priority
- The entered instruction for Recipient 1 will be kept
- Withdrawal Option and Withdrawal Indicate can be changed after deleting recipients 2 and 3

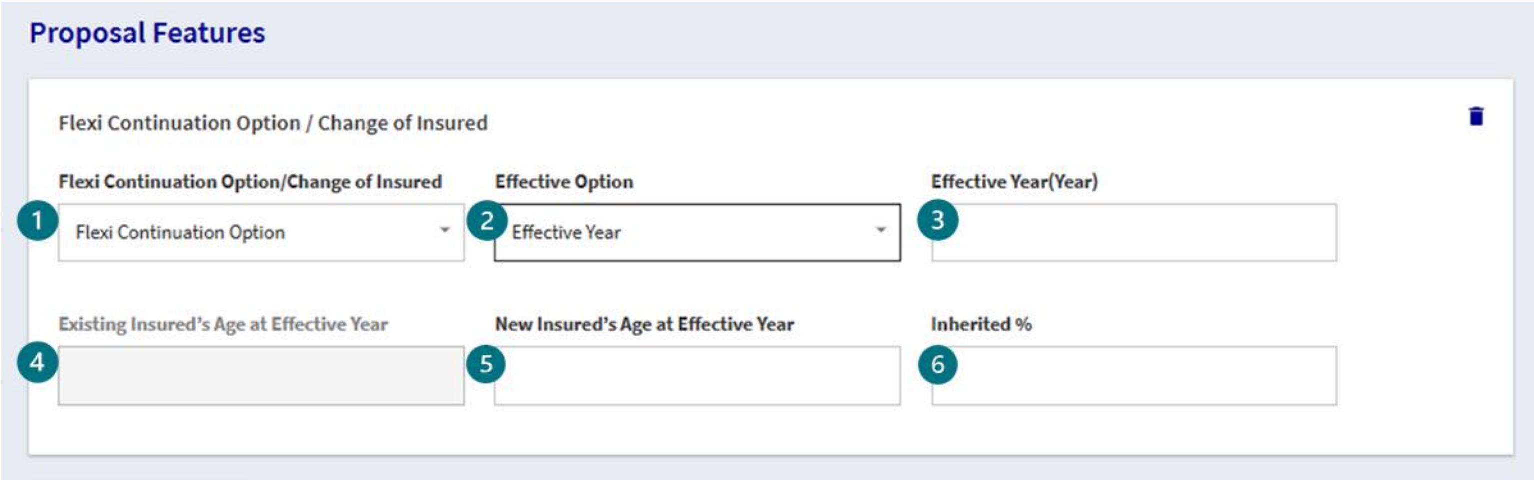




</td></tr>
</table>

8.1.2 Flexi Continuation Option / Change of Insured Option

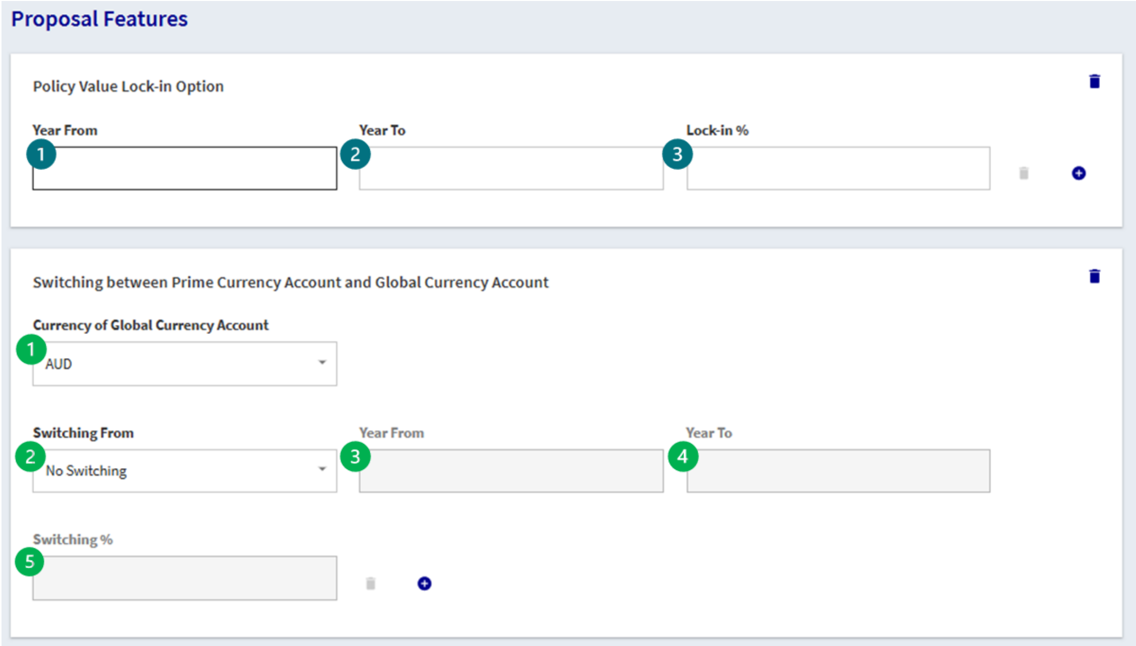
iBuy is able to project the policy values with consideration of the input for exercising the Flexi Continuation Option / Change of Insured Option.



Option (1)	Effective Option (2)	Effective Year (3)	Existing Insured's Age at Effective Year (4)	New Insured's Age at Effective Year (5)	Inherited % (6)
Flexi Continuation Option	Effective Year	Manually input; earliest Effective Year is the policy's premium payment period	System will automatically calculate	Manually input; maximum age is 137	Manually input; 1%-100%
	Existing Insured's Age at Effective Year	System will automatically calculate	Manually input; earliest age is the policy's premium payment period + Existing Insured's Age at Effective Year	Manually input; maximum age is 137	Manually input; 1%-100%
Change of Insured Option	Effective Year	Manually input; earliest Effective Year is the policy's premium payment period	System will automatically calculate	• <u>Superior Death Benefit:</u> Maximum age is the higher of i) Age 60 or ii) Initial insured's issue age + Effective Year + 10 • <u>Regular Death Benefit:</u> Max. age 65	N/A
	Existing Insured's Age at Effective Year	System will automatically calculate	Manually input; earliest age is the policy's premium payment period + Existing Insured's Age at Effective Year		N/A

8.1.3 Policy Value Lock-in Option and Dual Currency Accounts

After exercising the Policy Value Lock-in Option, the policy values will be transferred into the Prime Currency Account. Starting from the next policy year, customers can switch the policy values into the Global Currency Account.



Policy Value Lock-in Option:

(1) Start Year	(2) End Year	(3) Lock-in %
Earliest Start Year is the policy's premium payment period	Must be larger or equal to the Start Year	10%-50%

Only applicable to situations where the Policy Value Lock-in Option has been exercised:

(1) Currency of Global Currency Account	(2) Switching From	(3) Start Year	(4) End Year	(5) Switching %
All offered policy currencies except the original policy currency	Prime Currency Account to Global Currency Account	Earliest Start Year is the policy value lock-in Start Year	Larger than or equal to the Start Year	1%-100%
	Global Currency Account to Prime Currency Account **Note: Global Currency Account must have a remaining balance**	Earliest Start Year is Year of switching to Global Currency Account + 1 **Note: The switching year between Prime Currency Account and Global Currency Account cannot overlap**	Larger than or equal to the Start Year	

Important Notes:

- The maximum notional amount in the iBuy proposal system is RMB / USD / GBP / EUR / CAD / AUD / SGD / HKD 90,000,000. If the notional amount exceeds the maximum notional amount, such applications will need to follow the special quotation process
- Financial consultants can simultaneously input i) Flexi Continuation Option / Change of Insured, ii) Policy Value Lock-in Option, iii) Currency of Global Currency Account, iv) Switching between Prime Currency Account and Global Currency Account and v) Withdrawal Option to generate the relevant proposal. The relevant details will only be shown in the **supplementary illustration**.

Total Withdrawal Amount For All Years	88,000	80,000	115,200	283,200

The illustrated amounts above assume that withdrawals are made at the end of the relevant policy years. The amounts are projected based on the Company's bonus scale determined under the current assumed investment return and are not guaranteed. The actual withdrawal amount and period may be less than those illustrated above. The illustrated withdrawal amounts include withdrawal from the non-guaranteed benefits.

The Supplementary Summary is for illustration purpose only. It is subject to applicable administrative rules and approval of the Company when exercising the policy option(s).

If the customer chooses a withdrawal option and more than one recipient is involved, a supplementary summary will be added to the proposal to illustrate the withdrawal period and withdrawal amount for each recipient

The total withdrawal amount for each policy year and the total withdrawal amount for each recipient throughout the entire withdrawal period will be shown

Please note: The proposal shows the details of annual withdrawals for customers' reference.

9. Frequently Asked Questions

Related to Investment Strategy

1. **Is the policy currency equivalent to the corresponding currency of the backing assets?**
   We primarily invest in fixed-income assets denominated in USD and may also invest in non-USD denominated fixed-income assets if the assets are available and acceptable. We will use derivatives to hedge currency risks (if any) to best match the currency of fixed income investments with the policy currency/currencies of the currency accounts. We choose to invest primarily in fixed-income assets denominated in USD and use derivatives to hedge the currency risks, instead of directly investing in the assets under the matching currency, because fixed-income assets denominated in USD have relatively high liquidity, which can loosen the limitations on investment choices due to currency requirements. The availability and liquidity of suitable fixed income assets are our primary considerations when determining the bonds to invest. In addition, we also consider a broader range of factors including but not limited to relative value of the instruments after currency hedging and impacts to management expenses and overall investment.

   The geographic area where growth assets are invested in is independent of the policy currency. Under the growth asset strategy, currency mismatch may bring additional returns or serve as a source of diversification.

2. **Where do we choose to primarily invest in the growth assets?**
   For growth assets, we primarily invest in the Asia Pacific ex-Japan region but retain some global market exposure. The major reasons of choosing the growth assets in Asia Pacific ex-Japan region are APAC region benefits from the strong secular growth trends and the importance of its manufacturing role in global supply chains.

Related to Currency Conversion Option

3. **Why is the expiration date of a currency conversion proposal shorter than that of a new business proposal?**
   In order to reduce potential complaints, we will perform currency conversion based on the **currency exchange rate listed on the signed Illustration Document for Currency Conversion Option**. As to balance the customer benefits and risk to the Company due to exchange rate fluctuations, the **Illustration Document for Currency Conversion Option shall be valid for 7 calendar days**. If the signed Illustration Document for Currency Conversion Option and relevant application form cannot be submitted within 7 calendar days, the customer will need to re-generate the Illustration Document for Currency Conversion Option and submit it again. If the foreign exchange market experiences extreme fluctuations, the Company may require customers whose applications are still under review to re-generate the Illustration Document for Currency Conversion Option. After the customer agrees to the updated exchange rate, the Company will proceed with the currency conversion.

4. **After Currency Conversion Option is exercised, how will the policy values be converted?**
   It will be based on the **total cash value on the policy anniversary before approval to convert to new policy currency at the Prevailing Currency Exchange Rate***. Note that total cash value includes the cash value of the Reversionary Bonus and the cash value of the Terminal Bonus, we will determine these with reference to the bonus scales as at the date of approval of the application for conversion.
   * This is the exchange rate used to convert the original currency to the new policy currency as shown in the illustration document signed and submitted by the customer with respect to the Converted Policy and accepted by the Company. The Company reserves the right to amend this approach without prior notice.

5. **After Currency Conversion Option is exercised, will the policy number be different?**
   The Converted Policy will have a new policy number and the policy will be converted into a policy denominated in a different currency of a plan as the Company may designate (the Converted Policy) with the policy date being the same as the policy date of existing policy.

6. **If the existing policy of customers has Global Currency Account, when customers apply for Currency Conversion Option, can they choose for a currency of the global currency account of the Converted Policy different from the currency of Global Currency Account in existing policy?**
   Yes.

7. **After Currency Conversion Option is exercised successfully, will the premium in the new currency equal to the premium before conversion multiplied by the currency exchange rate?**
No. The policy returns for each policy currency differ. When the currency conversion option is exercised, the **total cash value at that time will first be converted to the new policy currency using the Prevailing Currency Exchange Rate, and then the new policy's notional amount and any premium payable are determined**. Please also note that the proportion and amount of guaranteed and non-guaranteed policy values and death benefit at the time of and after exercising the Currency Conversion Option will also be different from those before the conversion. Before exercising the Currency Conversion Option, we **encourage customers to first understand the changes caused by exercising the Currency Conversion Option, exchange rate risks, and evaluate personal needs**.

8. **After Currency Conversion Option is exercised, will supplement(s) be terminated?**
After currency conversion, all supplement(s) (if any) will be attached to the Converted Policy and the currency of such supplement(s) will be converted to the new policy currency at the Prevailing Currency Exchange Rate. If such supplement(s) is / are not offered in the new policy currency, such supplement(s) will be terminated on the Currency Conversion Effective Date. After exercising the Currency Conversion Option, it may induce a reduction of the supplement amount(s) (if any) pursuant to the Company's prevailing rules. If the supplement amount(s) fall(s) below the minimum amount as may be determined by the Company from time to time, the relevant supplement(s) will terminate. Before exercising the Currency Conversion Option, we encourage customers to first understand the impact of exercising the Currency Conversion Option on the existing supplement(s).

Related to Policy Value Lock-in Option and Dual Currency Accounts

9. **Can policy owner change the currency in Global Currency Account?**
Yes. If the customer has fully withdrawn the value of the Global Currency Account or has switched the value of the Global Currency Account to the Prime Currency Account (i.e. when the balance of the Global Currency Account is zero), the customer can apply to change the currency of the Global Currency Account.

10. **Does the Prime Currency Account or the Global Currency Account have a minimum account balance amount requirement?**
No.

Related to Flexi Segregation Option

11. **Can policy owner only exercise the Flexi Segregation Option once per year? Can the policy be segregated into multiple policies each time?**
Policy owners can exercise the Flexi Segregation Option at any time and even split their existing policy into multiple Segregated Policies (as long as the notional amount for each policy is not lower than the after policy inception minimum notional amount requirement as may be determined by the Company from time to time). However, each time the Flexi Segregation Option is exercised, it can only be used to segregate one policy from the same policy and the policy owner can only segregate from the same policy again after the previous segregation is completed.

12. **What is the impact on the policy roles after exercising the Flexi Segregation Option?**
The Segregated Policy will have a new policy number. The basic policy information (such as the initial insured, insured, beneficiaries, etc.) will be the same as the existing policy when it is issued. In general, policy owner can subsequently change the policy information of the Segregated Policy and the changes will not affect the existing policy.

13. **After Flexi Segregation Option is exercised, will there be first year commission or NBC for the Segregated Policy?**
There will not be any first year commission or NBC, and the calculation of renewal commission will be referenced from the policy year and the premiums payable under the Segregated Policy.

14. **If the policy owner wishes to pass on the policy to his/her two adult children, how can he/she achieve this through WealthAhead II's policy options?**
    The policy owner can exercise the Flexi Segregation Option to split the existing policy into two policies and then designate the son or daughter as the contingent owner and contingent insured in the respective policies. For example, the son to be the contingent owner and contingent insured of policy A, and the daughter to be the contingent owner and contingent insured of policy B.

Related to the Flexi Continuation Option

15. **When the policy owner is designating the contingent insured, does the contingent insured need to sign the relevant documents to confirm the validity of the designation?**
    When designating the contingent insured, the contingent insured does not need to sign the relevant documents, subject to the Company's prevailing rules. However, the policy owner must **inform them of the relevant designation and details**. Otherwise, the legacy plan cannot be implemented. The **contingent insured is required to sign the relevant documents** only **when he/she replaces the deceased insured**.

16. **Can all WealthAhead II policies designate a contingent insured?**
    No, this option is only applicable to individual-owned policies and corporate-owned policies with Corporate Financial Planning purposes only.

17. **(i) Is it mandatory to allocate the Compassionate Benefit when designating Contingent insured?**
    (ii) If the policy owner has successfully designated a contingent insured (and has allocated the Compassionate Benefit) before, can the policy owner choose to submit the death benefit claim or change the allocation for the Compassionate Benefit upon the insured's death?

    (i) The policy owner can choose not to allocate the Compassionate Benefit (0%), which means that 100% of the policy values is used for inheritance. In this case, when the existing insured passes away and the contingent insured becomes the new insured, the notional amount and policy values remain unchanged.

    (ii) Flexi Continuation Option will not automatically take effect. The policy owner can choose to exercise the Flexi Continuation Option (but based on the pre-specified allocation only) or follow the current procedures to apply for death benefit claim.

18. **Does the contingent insured need to undergo medical underwriting?**
    No medical underwriting is required during the designation or replacement stage.

19. **When designating the contingent insured, why will the existing beneficiary(ies) of the policy be automatically revoked and the policy owner or the contingent owner will become the only beneficiary of the policy?**
    After the insured has passed away, as the policy owner or contingent owner (as the case may be) needs to choose whether to exercise the Flexi Continuation Option or submit the death benefit claim, if they and the beneficiary are not the same person, they may have their own wishes and find it hard to come to a compromise. To ensure that this does not cause any legal disputes, when designating the contingent insured, the existing beneficiary(ies) of the policy will be automatically revoked and the policy owner or the contingent owner (as the case may be) will become the only beneficiary of the policy.

20. **When the contingent insured replaces the deceased insured to become the insured, can the policy owner then designate other person(s) as beneficiary?**
    Yes.

21. **Can interim owner choose to apply for the Death Benefit claim or exercise the Flexi Continuation Option upon insured's death?**
    No. The interim owner cannot choose to apply for Death Benefit claim. For policies of which the ownership is held by the interim owner as at the date of death of the insured, **the application of the Flexi Continuation Option is deemed to have been made upon our receipt of notice of the insured's death**.

22. If the interim owner has taken up the policy ownership, is insurable interest between the interim owner and contingent insured required upon the replacement of deceased insured?
No. When the policy ownership is under the interim owner, insurable interest is only required between the contingent owner and the contingent insured.

23. How should the premium be calculated if the contingent insured successfully replaced the insured during the premium payment term?
Standard class is used to calculate the premium of the contingent insured. For policies having additional premiums, the company will **not** refund the premium difference before the effective date of the replacement of insured.

Related to Change of Insured Option

24. What are the relationship requirements for corporate-owned and individual-owned policies?
The new insured must be:

For individual-owned policies	For corporate-owned policies
(i) Policy owner; or (ii) Spouse of the policy owner; or (iii) Juvenile child (under age 18) of the policy owner; or (iv) Grandchild or great-grandchild (under age 18); or (v) Other relationship as accepted by the Company	(i) Employee or executive of the owner; or (ii) Other relationship as accepted by the Company

25. Are there any age requirements on the new insured when applying for the Change of Insured Option?
Different death benefit options have different age limits for the new insured.
The new insured must meet the following two conditions at the time of the change of insured application:

	Superior Death Benefit	Regular Death Benefit
1) Age range	0-60	0-65
2) Maximum age limit of the new insured	initial insured's age + 10 years	65

^ Age of the initial insured will be continuously counted both during and after the initial insured's lifetime.

Example:

Superior Death Benefit			
Attained age of the initial insured ^	**Attained age of the new insured**	**Eligible?**	**Explanation**
20	50	✗	The new insured is more than 10 years older than the initial insured
55	61	✗	The new insured exceeds the age range
30	35	✓	The new insured is less than 10 years older than the initial insured and within the age range
Regular Death Benefit			
Attained age of the initial insured ^	**Attained age of the new insured**	**Eligible?**	**Explanation**
20	50	✓	The new insured is less than age 65
56	65	✓	The new insured is equal to age 65
65	72	✗	The new insured exceeds the age range

26. If Mr. Chan applied WealthAhead II at the age of 50 (who is also the insured and Superior Death Benefit was selected) and changed the insured to his son (10 years old) 1 year later, after 5 years, can he exercise the Change of Insured Option again and change the insured back to himself?

Yes, as long as the application fulfils the age requirements (i.e. the new insured's age must be (i) less than or equal to 60; AND (ii) the new insured must not be older than the initial insured's (not the latest insured) by more than 10 years). For Mr. Chan's case, he is age 56 and has not performed any change of owner (so it also passes the relationship requirement for Change of Insured Option), so he qualifies for the Change of Insured Option and is able to change the insured back to himself.

27. If the policy owner changes the insured during premium payment period and loading is applied on the new insured after medical underwriting, will the past premium difference be collected?

- If the new insured requires additional loading after medical underwriting, the Company will **NOT** collect the past premium difference before the effective date of the Change of Insured Option (which means the difference between the premium determined based on the new insured and the premium determined based on the existing insured) (subject to the prevailing rules as may be determined by the Company from time to time).
- Under similar circumstances, for a policy with additional loading, if the new insured does not require additional loading after medical underwriting, the Company will **NOT** refund the past premium difference before the effective date of the Change of Insured Option (subject to the prevailing rules as may be determined by the Company from time to time).

28. If the current insured passes away prior to the effective date of the change of insured after submitting the application, how will the death benefit be determined?

As the "Change of Insured Option" has not yet been effective, the existing insured (but not the new insured) is still the insured under the policy, so the policy beneficiaries can only apply for death claim.

29. After exercising the "Change of Insured Option", will the calculation method of the Superior Death Benefit be different?

After exercising the "Change of Insured Option", the calculation of the Superior Death Benefit remains unchanged.

Guaranteed Death Benefit is the higher of:

(A) (i) 100% of the total standard premiums paid if the death occurs (a) within the 1st to 3rd policy year, or (b) when the initial insured's age is above 60; or
(ii) 130% of the total standard premiums paid, if death occurs (a) after the end of the 3rd policy year, and (b) when the initial insured's age is under or at 60;

AND

(B) Guaranteed Cash Value

It should be noted that the **guaranteed death benefit is calculated based on the age of the initial insured**, who is the insured named in the policy specifications at the commencement of the policy.

Example: Mr. A applies for WealthAhead II Savings Insurance - Supreme at the age of 30 and exercises the "Changed of Insured Option" at age 40 to change the insured of the policy to his son, Mr. B (age 0). Since the policy has been in force for 10 years, Mr. B does not need to wait for another 3 years after the change of insured to enjoy the following calculation of the guaranteed death benefit immediately:

<u>The higher of:</u>
(A) 130% of the total standard premiums paid; and
(B) Guaranteed Cash Value

The above guaranteed death benefit will be applicable until Mr. B reaches age 20, i.e. age 60 of Mr. A as the initial insured). Thereafter, the guaranteed death benefit formula (A) of Mr. B will be changed to 100% of the total standard premiums paid. The actual guaranteed death benefit paid will be compared with the guaranteed cash value at that time and the higher of the two will be taken.

Related to Heritage Protector Option

30. What are the differences of contingent owner under FortuneXtra, WealthAhead, WealthAhead II and Max Goal II?

	WealthAhead II	**Max Goal II**	**FortuneXtra/WealthAhead**
Earliest exercise year	After policy inception	After the end of the 1st policy year	After the end of the 1st policy year
Event for change of policy ownership	Policy owner can choose the Succession Event: (1) the policy owner's death only; or (2) the policy owner's death, mental incapacitation or physical incapacitation.		The policy owner's death
Age requirement of contingent owner	Policy owner can elect the Nomination Option: (A) instant: contingent owner must be age 18 or above (B) designated age: designated age of contingent owner must be age 18 or above		Contingent owner must be age 18 or above
Able to designate interim owner?	Allowed. An interim owner must be appointed if Nomination Option (B) is selected. The interim owner must be aged 21 or above at designation.		Not allowed

31. What are the differences in obligations and rights between policy owner and interim owner?

The policy owner can specify an age at which the contingent owner will assume ownership, allowing the interim owner to manage the policy with granted policy rights before the contingent owner assumes policy ownership after attaining the designated age.

Key policy right differences between policy owner and interim owner:

	Policy owner	**Interim owner**
Obligations	All the obligations (including but not limited to premium payment and loan repayment)	
Rights	Full policy rights	Granted policy rights by policy owner to manage the policy including: 1) The right to apply for and receive withdrawal proceeds through the withdrawal option selected by the policy owner prior to the succession event, subject to the pre-selected maximum annual withdrawal amount (a percentage of the total cash value) 2) The right to update personal particulars and communication methods related to the policy, administrative changes necessary for receiving withdrawal proceeds. 3) Any policy administration rights as necessary for compliance of laws and regulation and continued administration of policy

32. If the policy owner wants to allow withdrawal rights when designating the interim owner, what options can the policy owner choose from? What if the policy owner doesn't want to grant withdrawal rights to interim owner?

At designation, the policy owner can indicate in the form to grant the interim owner the maximum annual withdrawal amount (0-99% of the latest total cash value at the time of withdrawal). For granting withdrawal right, policy owner needs to also designate the following withdrawal options: (1) allowed to withdraw by reducing the notional amount; or (2) not allowed to withdrawal by reducing the notional amount.

33. When the policy owner is designating the contingent owner/interim owner, does the contingent owner/interim owner need to sign the relevant documents to confirm the validity of the designation?

When designating the contingent owner/interim owner, the contingent owner/interim owner does not need to sign the relevant documents, subject to the Company's prevailing rules. However, the policy owner must **inform them of the relevant designation and details**. Otherwise, the legacy plan cannot be implemented. The **contingent owner/interim owner is required to sign the relevant documents** only **when he/she replaces the policy owner to take over the policy**.

34. Is consent from interim owner required when contingent owner reaches designated age and submits application to take up ownership?

No, regardless of whether policy ownership is under the interim owner at the time of application.

35. What is the age requirement for contingent owner and interim owner?

The **contingent owner age must be 18 or above** under Nomination Option (A) – Instant or the designated age must be 18 or above under Nomination Option (B) – Designated Age. The **interim owner must be age 21 or above** to comply with applicable laws and regulations.

36. Is there any submission time frame for applying change of policy ownership under Heritage Protector Option?

Yes, application needs to be submitted to the Company **within one year from the date of : (i) date of succession event; or (ii) contingent owner reaches Designated Age when the policy is held by the interim owner; or (iii) latest IO event** (please see definition in section "6.8.3 Potential outcomes if a Succession Event occurs"). Otherwise, the designation will be revoked or invalidated (as the case may be) and the ownership of the policy will be vested in the original policy owner or their estate.

37. What will happen if the interim owner passes away or becomes incapacitated before the contingent owner takes up the policy?

Scenario	Outcome
If the interim owner passes away prior to the date of succession event **AND** contingent owner has not reached designated age	Designation of Nomination Option (B) – Designated Age of Heritage Protector Option will be **revoked**
If the interim owner passes away prior to the date of succession event **AND** contingent owner has reached designated age	Designation of Heritage Protector Option - Nomination Option (B) – Designated Age is still **valid**, when the succession event occurs, contingent owner can apply for change of policy ownership
After the succession event occurs, the interim owner passes away/becomes incapable of taking up or holding policy ownership when the contingent owner has not reached the designated age	Notwithstanding the designated age, the contingent owner (age 18 or above) will take up the policy as the new policy owner or the legal representative[&] of the contingent owner (under age 18) will be entitled to take up the policy ownership

Note: If the interim owner and the policy owner passes away on the same day, the policy owner is deemed to have predeceased the interim owner

[&] The legal representative of the contingent owner who is under age 18 shall be any person who is legally authorized to manage the contingent owner's property

38. What will happen if the interim owner/contingent owner does not apply to take over the policy after the occurrence of the relevant events?

Role shall take over the policy	Result
Interim owner	If the application for change of ownership to the interim owner has not been submitted nor been accepted by the Company within **one year** from the date of succession event, notwithstanding the designated age requirement: Contingent owner (age 18 or above) should take over the policy to become the policy's new owner; or The legal representative of the contingent owner (under age 18) should have the right to take over the policy
Contingent owner	Within **one year** from the relevant dates below, if the application to change the ownership to the contingent owner or relevant legal representative (as the case may be) has not been submitted nor been accepted by the Company, the designation of the contingent owner will be invalidated. If at the time of the succession event, the contingent owner has reached the designated age, the relevant date refers to the date of the succession event; or If at the time of the succession event, the contingent owner has not reached the designated age, this means: (If no IO Event* has occurred) the date on which the contingent owner attains the designated age; or the latest IO Event* In the event that the designation is invalidated, ownership of the policy shall be vested in the original owner (or such person given the authority under law to hold this policy on behalf of the original owner) or his/her estate (as the case may be). * For details, please refer to section "6.8.3 Potential outcomes if a Succession Event occurs".

39. If the policy owner is single and does not have any direct family members, can they designate a close relative as the contingent owner?

The Company will review each application on a case by case basis.

40. What are the differences between the interim owner and the contingent trustee (applicable to insured under age 18)?

Key differences between interim owner and contingent trustee:

	Contingent trustee	Interim owner
Inheritor	Insured	Contingent owner
Age requirement of inheritor	Only applicable to insured under age 18 at the time of application	Not subject to existing age requirement but designated age of the contingent owner must be at least age 18
Age at which the inheritor owner takes over the policy	When the insured reaches age 18	When the succession event happens AND contingent owner reaches the designated age
Circumstance that the contingent trustee/interim owner takes over the policy	If the original trustee passes away before the insured reaches age 18	When the succession event happens and contingent owner has NOT reached the designated age
Policy rights when holding the policy	Contingent trustee has all policy rights	Interim owner has granted policy rights specified by the policy owner (refer to Q31)
When the inheritor takes over the policy	If the contingent trustee is the trustee at that time, the consent of the contingent trustee is required when the insured applies to change the policy ownership after he/she reaches age 18	Even if the interim owner is the policy owner at that time, the interim owner's consent is not required when the contingent owner applies to change the policy ownership after he/she has reached the designated age

Related to Flexi Care Option

41. When the policy owner appoints the designated executor, does the designated executor need to sign the relevant documents to confirm the validity of the designation?
When appointing the designated executor, the designated executor does not need to sign the relevant documents, subject to the Company's prevailing rules. However, the policy owner must **inform them of the relevant designation and details**. Otherwise, the legacy plan cannot be implemented. Only upon the occurrence of a Mental Incapacitation Event or Loss of Capacity for Independent Living of the policy owner (as the case may be), the **designated executor is required to sign the relevant documents for applying to receive the one-off withdrawal on behalf of the policy owner**.

42. What is the policy value withdrawal sequence for the designated withdrawal?
If the amount of designated withdrawal is equal to 100% of the total cash value, the proceeds payable shall be of amount equivalent to the surrender value and the policy will then terminate from the date of approval of the application for such withdrawal.

If the amount of designated withdrawal is less than 100% of the total cash value, the proceeds will be executed by first withdrawing from (1) the Prime Currency Account (if any), (2) the Global Currency Account (if any) and (3) cash value of the reversionary bonus and its corresponding cash value of the terminal bonus. If the amount is insufficient, the remaining balance will be withdrawn through notional amount reduction, subject to the after policy inception minimum notional amount requirement.

43. What documentations are required for the designated withdrawal application?
The designated executor must provide satisfactory proof of the occurrence of a Mental Incapacitation Event or Loss of Capacity for Independent Living of the policy owner, confirmation that no committee or guardian has been appointed or written consent from relevant committee or guardian (if any). In case of Loss of Capacity for Independent Living to the owner, policy owner's consent is also required.

44. What are the key differences between designated executor in WealthAhead II and designated person under TotalAssure Critical Illness Plan/ CareForAll Critical Illness Plan?

	WealthAhead II	**TotalAssure / CareForAll**
Roles	Designated Executor	Designated Person
Key rights	<u>Apply for and receive the proceeds of a one-time withdrawal</u> on behalf of the policy owner upon the occurrence of a Mental Incapacitation Event or Loss of Capacity for Independent Living of the policy owner. The designated executor must use the proceeds of designated withdrawal solely for the maintenance, benefit and care of the <u>policy owner</u>.	To <u>file critical illness claims and to receive the living benefit payment(s)</u> on behalf of the policy owner upon the occurrence of a Mental Incapacitation Event or Loss of Capacity for Independent Living of the policy owner. The designated person must use the living benefit solely for the maintenance, benefit and care of the <u>insured</u>.

Related to Wealth Master Service

45. Can customers choose the withdrawal start date under the Wealth Master Service?
The customer can designate the start year for each recipient but the start date cannot be designated. The withdrawal effective date must be on the policy anniversary. If the policy effective date is 1 November 2025 and the customer designates to start withdrawal from 2030, after the application for service has been approved by the Company, the withdrawal effective date will be 1 November 2030.

46. At the time of designation, can the recipient be less than age 18?
Yes, but the recipient must attain the age of 18 as at the time of the first withdrawal payment.

47. Does the Wealth Master Service have any minimum withdrawal amount requirement?
Yes, the current minimum withdrawal amount for each withdrawal for each recipient is HKD1,000 or equivalent.

48. Is it possible to designate only two recipients with different withdrawal frequencies for each recipient?
Each withdrawal instruction must designate **at least one and at most three recipients**. For each policy, **the withdrawal frequency (monthly or annually) and withdrawal option (e.g. whether allow reducing the notional amount) must be the same for each recipient**. However, the withdrawal amount, start year and withdrawal period can be different.

49. Is WealthAhead II's upgraded version of Wealth Master Service only limited to WealthAhead II?
No, **the new features of the Wealth Master Service are also applicable to Max Goal II**.

Related to Death Benefit Settlement Option

50. If the policy owner specifies more than one beneficiary, can the policy owner choose different death benefit settlement option with different deferral of first payment instruction for different beneficiaries?
Yes.

51. What is the maximum number of years that the first payment can be deferred?
The start age of death benefit settlement of each beneficiary shall not exceed the age of the relevant beneficiary at the date of designation by more than 30 years.

52. What is the procedure for designating/changing the Death Benefit Settlement Option?
The policy owner can indicate the below information in the Policy Service Application Form for each beneficiary:

- Death benefit settlement option (for options apart from lump sum payment, also need to specify the instalment period and payment mode (annual payment / monthly payment))
- Start age of the death benefit payment if they would like to defer the first payment

Example 1 – "Option 2: Payment by Instalments" with first payment deferral

10. OTHER SERVICE REQUEST 其他更改
I would like to choose payment by instalments, 10 years of payment term and in annual mode, for the Death Benefit Settlement. The first payment to be deferred until the beneficiary reaches age of 18.

Example 2 – "Option 3: Hybrid Payment – A Lump Sum followed by Instalments"

10. OTHER SERVICE REQUEST 其他更改
I would like to choose payment by mixture of both Lump-sum payment and instalments for Death Benefit Settlement. Lump-sum payment to be paid first, 30% for Lump-sum payment and 70% for instalments. For instalments, 10 years payment term and in annual mode.

If the policy owner does not apply to change any of the death benefit settlement arrangement, the death benefit will be paid to the beneficiary(ies) in lump sum payment without any deferral of first payment.

53. If a beneficiary chooses the 'Instalment Payment' option or 'Hybrid Payment' option or defers the first payment, will there be any interest on the unpaid death proceeds?

Yes, any unpaid death proceeds will be left with the Company to accrue interest based on the non-guaranteed interest rate, until the full amount of death proceeds has been paid out. This interest rate is **non-guaranteed** and the Company will determine this interest rate from time to time at its absolute discretion. The current interest rate for GBP and EUR is 0.5% per annum and 2% per annum for other currencies. Based on the existing administrative rules, the actual annual interest rate will be determined and locked **on the claim approval date of the death claim**. The company will calculate the interest on the unpaid death benefit at the locked interest rate.

54. Is “Death Benefit Settlement Option” applicable to the “Compassionate Benefit”?

No.

55. What will happen if one of the beneficiaries passes away during the deferral period or when receiving the partial payments under the 'Instalment Payment' option or the 'Hybrid Payment’ option?

In the event that a beneficiary or policy owner passes away during the deferral period or when receiving partial payments of death proceeds, the remaining balance of his share of the death proceeds will be paid in a lump sum to their estate or, as applicable, to the estate of the policy owner. This payment will include interest accrued up to the date of receipt of the proof of death of the deceased beneficiary or the policy owner (as the case may be). Please note that this occurrence will not affect the Death Benefit Settlement Option or the payments to any other surviving beneficiaries.

56. Can the beneficiary change the “Death Benefit Settlement Option”?

No.

Related to Corporate-owned Policies

57. Can the policy owner be changed from a corporate to an individual during the policy term?

Yes, however, please note that the policy cannot be reverted to a corporate-owned policy afterwards.

58. What should policy owner do if the employee decides to leave the company?

If the corporate intends to reward the employee for his/her service and wishes to pass the policy to the employee, the corporate may apply for change of policy ownership to the employee. Otherwise, the corporate shall apply for change of insured to another appropriate employee.

Related to Extended Grace Period Benefit

59. After changing the Principal Location of Residence, is there any timing requirement on applying the Extended Grace Period Benefit?

No, but satisfactory proof of address issued within last 3 months from the application date must be provided.

60. During the Extended Grace Period, can customers still withdraw policy value or apply for any cash loan?

No.

Related to Sales Support – iBuy (New Business Proposal)

61. Can iBuy generate proposals with monthly withdrawals?

The current system only supports annual withdrawals and does not support monthly withdrawals at the moment. The proposal shows the details of annual withdrawals for customers’ reference.

62. Can iBuy illustrate the 3 Wealth Master Service withdrawal options as well as the projected policy values after withdrawal?

Yes, but please note that under the same withdrawal instalment, withdrawal option 3 of the Wealth Master Service (withdrawal of policy values from the lock-in account) has a withdrawal sequence from currency account(s) while iBuy allows withdrawal from one of the currency accounts only. Please refer to the table below:

Wealth Master Service		**iBuy proposal details**
Periodic Withdrawal Options	**Withdrawal sequence (withdrawal from the relevant account or value in the following order for each withdrawal under each option)**	
1. Withdrawal of policy values (reduction of notional amount allowed) Note: Notional amount may be reduced under this option	(i) Prime Currency Account (ii) Global Currency Account (iii) Cash value of reversionary bonus and cash value of its corresponding terminal bonus (iv) Guaranteed cash value and cash value of its corresponding terminal bonus *Note: Notional amount will be reduced corresponding to the withdrawal under item (iv) above.*	Choose Policy Value Lock-in Option (optional) + Switch currency account values (optional) + Periodic Withdrawal
2. Withdrawal of policy values (reduction of notional amount not allowed) Note: Notional amount will not be reduced under this option	(i) Prime Currency Account (ii) Global Currency Account Cash value of reversionary bonus and cash value of its corresponding terminal bonus	Choose Policy Value Lock-in Option (optional) + Switch currency account values (optional) + Partial Withdrawal
3. Withdrawal of policy value from lock-in account	(i) Prime Currency Account (ii) Global Currency Account	Choose Policy Value Lock-in Option + Switch currency account values (optional) + Withdrawal from Currency Account (either withdrawal from Prime Currency Account or Global Currency Account can be chosen under the same withdrawal instalment)

63. How should I input in iBuy if I want to illustrate the withdrawal of the locked-in amount from Prime Currency Account immediately after lock-in?

Both the Policy Value Lock-in Option and withdrawal are exercised **at the end of the policy year**. Therefore, the year for withdrawal should be equal to the year in which the policy value lock-in is exercised. If both the withdrawal and the policy value lock-in option are exercised in the same policy year, **the proposal will assume that the withdrawal is made immediately after the policy value lock-in option is exercised at the end of the policy year**.

Related to Other Policy Administrative Arrangements

64. Without considering the prepaid premium promotion, what is the current interest rate for Future Premium Deposit Account?

Like other products, the current interest rate is 1.50% p.a. for non-HKD and 1.00% p.a. for HKD. These interest rates are not guaranteed.

65. If the policy currency is non-HKD and the customer chooses to pay the monthly premium in HKD through autopay, how will the Company handle it?

If autopay is done through a bank account/credit card, the premium payable will be calculated in Hong Kong dollar equivalent based on the Company's prevailing exchange rate, and then the bank will deduct the relevant amount. Unless the customer has set an automatic transfer limit at the bank, under normal circumstances, exchange rate changes will not affect the autopay process.

66. Where can customers find the exchange rate on the day of premium payment?

Customers can refer to the exchange rate listed on the following website on the day of premium payment: https://www.axa.com.hk/en/exchange-rate

67. How can customers collect surrender benefits or withdraw value?

• Autopay: only applicable to banks in Hong Kong and payment will be made in Hong Kong dollars. The maximum amount of autopay is HK$1 million.

• Cheques: only applicable to overseas customers or foreign currency cheque or amounts greater than HK$1 million. If it is a foreign currency cheque, please indicate the place where the cheque is received: (i) Hong Kong and Mainland China or (ii) outside Hong Kong and Mainland China

• Telegraphic Transfer: only available to overseas customers

For latest details, please refer to the Cash Withdrawal/ Policy Loan/ Annuity Payment Application Form: https://www.axa.com.hk/en/downloads/frequently-used-forms/details

68. If the customer needs to withdraw part of the policy values, what choices does the customer have? What is the impact on the policy value after exercising such option?

Options	Impact on the policy value
1. Withdraw cash value of declared reversionary bonus	• The notional amount remains unchanged • The cash value of the terminal bonus corresponding to the reversionary bonus will be paid when withdrawing cash value of declared reversionary bonus • The amount of reversionary bonus and terminal bonus declared in the future will be reduced due to withdrawal, affecting the long-term value of the policy
2. Policy Value Lock-in and withdraw the value of the Prime Currency Account	• After Policy Value Lock-in Option is exercised, notional amount will be reduced, just like partial surrender. For more details, please refer to item 4 of this table. • Lock-in amount will be transferred to Prime Currency Account • Can apply to withdraw part or all of the value of Prime Currency Account anytime • When withdrawing the value of Prime Currency Account, the notional amount, reversionary bonus and terminal bonus remain unchanged
3. Withdraw the value of the Global Currency Account	• Can apply to withdraw part or all of the value of the Global Currency Account at anytime • Can select to withdraw in the currency of the Global Currency Account, policy currency or HKD, subject to the administrative rules of the Company in force from time to time • The notional amount, reversionary bonus and terminal bonus remain unchanged
4. Partial surrender	• The notional amount will be reduced • Its corresponding guaranteed cash value, reversionary bonus, terminal bonus, death benefit and compassionate benefit will also be reduced accordingly • The reduction in notional amount may result in a reduction in the amount of sum insured of supplements • The notional amount after reduction cannot be less than the after policy inception minimum notional amount determined by the Company • The amount of reversionary bonus and terminal bonus declared in the future will be reduced due to partial surrender, affecting the long-term value of the policy

5. Policy Loan	• Does not affect the future reversionary bonus and terminal bonus, but customers need to pay interest • The Company will deduct the indebtedness when paying any benefits • If the indebtedness is greater than the sum of guaranteed cash value, cash value of reversionary bonus and value of the Prime Currency Account, the policy and related supplements will be terminated

III. Comparison of Similar Products in the Market – Returns

Important Note: Please note that the below projected returns have been adjusted based on the regulatory cap of 6.0% (HKD) / 6.5% (non-HKD) for the illustrated internal rate of return for Surrender Value at the point of sale. However, the guideline <u>will not impact the actual policy returns</u>. The below projected values are for reference only and based on certain assumptions, including but not limited to annual premium payment mode is chosen, all premiums are paid in full when due, no benefits have been paid, no levy on insurance premiums is included throughout the term of the policy and no withdrawals or other policy options have been exercised (unless specified). These projected values are not guaranteed and are projected based on the Company's current assumed bonus scale and may be vary due to rounding differences. The actual values may be higher or lower than these projected values. The information below is based on the illustrations of similar participating savings plans provided by key competitors in Hong Kong as of August 2025. They are subject to change at any time without notice. AXA does not bear any liability for any errors and omissions.

<u>WealthAhead II (USD) vs Similar 5 Pay Products in the Market</u>
